

**INAUGURATION IS
VERY QUIET ONE****PRESIDENT DIAZ OF MEXICO IN-
STALLED IN OFFICE TODAY.****EIGHTH SUCCESSIVE TERM****Veteran Head Of the Mexican Republic
Once More Inducted Into
Office.****[SPECIAL TO THE GAZETTE.]**

City of Mexico, Dec. 1.—The inauguration ceremonies in connection with the induction of Gen. Porfirio Diaz in the office of President of the Mexican Republic for his eighth successive term took place today very quietly owing to the condition of the country and recent revolution. The official home of President Diaz was thronged with thousands of citizens of all classes, while senators and representatives, army officers and diplomats, all in full uniform, added brilliancy to an impressive scene. In honor of the occasion the streets of the capital were profusely decorated. The manifestations of loyalty to the President and the Republic were more pronounced than usual, and were given encouragement by the authorities.

Owing to the disturbed condition of the country the inauguration was not as elaborate as usual. It is also rumored that the report of yesterday that General Reyes, who has been in political exile in Europe for many years, will be asked to return and will be made vice president, is correct. It is thought that in this way the claims of other aspirants for the office will be quieted and peace can be easily restored as Reyes is most popular with the masses.

It is also rumored that Diaz will again eventually turn over the affairs of state to Reyes when he returns making him the practical President of the republic while he nominally holds the reins of government himself.

**NEW UPRISING IS
REPORTED TODAY
OUT IN SONORA****Rebels Said To Be Recruiting Men in
the Mountains For Campaign
Against Mexican Govern-
ment.****[BY ASSOCIATED PRESS.]**

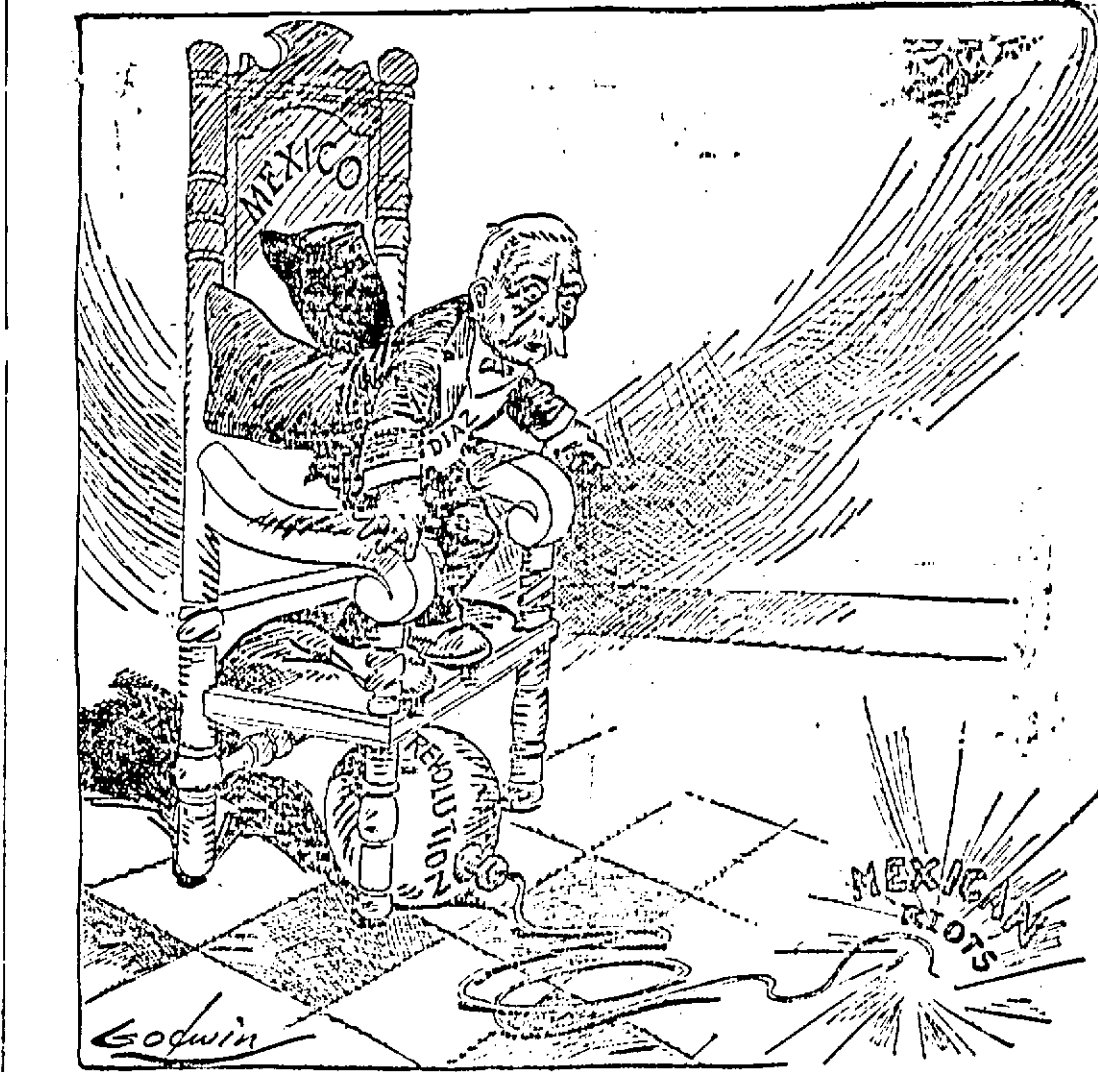

El Paso, Texas, Dec. 1.—Sonora, hitherto quiet, was reported today to be the rendezvous of a number of bands of insurgents who are organizing in the mountains.

Pierce Battle Fought.
Chihuahua City, via El Paso, Dec. 1.—At Piedras Blancas, fifty miles west, a large body of insurgents attacked 150 government soldiers yesterday. The reports say all the troops who were not killed were captured. Gen. Plata, however, says he has reports showing nine soldiers and 27 insurgents slain.

Other Fighting.
El Paso, Texas, Dec. 1.—Passengers arriving here this morning, direct from Madera, Chihuahua, on the first train that has come out there since Nov. 22nd, declared every town along the line between Chihuahua and Madera except one, was held by insurgents and that there has been considerable fighting in the mountains.

**SIX NEW REPRESENTATIVES
FROM PENNSYLVANIA STATE****[BY UNITED PRESS.]**
Washington, D. C., Dec. 1.—The general election of the state of Pennsylvania is 1,365,111, an increase of 1,362,995, or 21.5 per cent. This gives Pennsylvania six new Congressmen.**SERVICES HELD FOR
LATE JUDGE KEYES****Masonic Order Had Charge Of the
Services At the Grave—Many
Prominent Men Present.****[BY UNITED PRESS.]**

Madison, Wis., Dec. 1.—Funeral services for the late Judge E. W. Keyes, Madison postmaster and prominent pioneer politician of the state, were held here this afternoon with impressive ceremonies, the Rev. E. E. Fawcett of Grace Episcopal church officiating at the residence. At two o'clock the services under Masonic auspices were held at the Masonic Temple, the rites being read by Grand Secretary, W. W. Perry of Milwaukee. The body was escorted to the cemetery by Masonic, G. A. O. U. and Elk delegations, the deceased having been a member of each organization. Many prominent people from all parts of the state were in attendance of the services. "The honorary pallbearers were: Gov. J. O. Davidson, former Gov. Edward Scofield, former Gov. W. D. Howard, D. C. Owen, postmaster of Milwaukee; Judge R. D. Marshall of the Supreme Court, and Mr. F. W. Outley.

The active bearers were: C. C. Rogers of Milwaukee, Fred A. Dunnett of Sheboygan, John Corcoran, George Kockerman, B. P. Land, and D. B. Clarke of Madison. Of the active pallbearers two are past grand masters of Wisconsin Masons.

**ROBBERS FAIL TO
OPEN BANK VAULT****Nightwatchman Was Bound and Gag-
ged By Bank Robbers But Only
Small Haul Was Made.****[BY UNITED PRESS.]**

Russell, Iowa, Dec. 1.—"Bliss" Stearns, night watchman, was bound and gagged by robbers when he caught robbing the State Bank at Russell early today. He was knocked senseless and placed in one corner of the bank. The robbers failed to blow the vault and escaped with only a small haul.

Madison, Wis., Dec. 1.—Alfred Buser of Madison of the class 1911, for two years tackle on the University of Wisconsin football team, this noon was unanimously elected captain of the team for the season of 1911.**CHOLERA REPORT IS
THOUGHT INCORRECT****Discovery of Cholera at Almena
Thought to Be Mistake by State
Board of Health.****[SPECIAL TO THE GAZETTE.]**

Madison, Wis., Dec. 1.—The existence of cholera at Almena, Wis., is partially discredited at the office of the state board of health in this city. One of the striking indications of cholera is the quick death of the victim. In the case of Gottlieb Jonschke, at Almena, illness was noted one day after the colonist's arrival, and he was living yesterday, nearly a week after the outbreak. This fact, it was said here today, casts doubt on the cholera story.

The state board of health receives almost daily the names of immigrants who have arrived at American ports and who are destined for Wisconsin. These are sent by the marine hospital service and the state board forwards the statements to the health officers in the districts to which the immigrants are bound. Thus the foreigners are placed under immediate surveillance and the outbreak of infectious disease contracted in foreign countries is guarded against. The case of Jonschke was thus handled by the state board, and the Almena health authority took immediate and complete steps to prevent the spread of the disease, which he reported as having cholera symptoms. Quarantine was established at once.

Cholera presents, usually, the symptoms of violent purging, vomiting, muscular cramps, great fall of blood pressure, subnormal temperature and collapse. Asiatic cholera has been demonstrated as an intestinal disease caused by a comma-shaped bacillus found in the contents or walls of the intestine and which enters the system through the mouth.

A great epidemic of the disease has for a long time been raging in Russia.

**COOK SPENT WEEKS
AT TROY, NEW YORK****While All the Newspaper Sleuths
Were Searching For Him—
Everywhere.****[BY UNITED PRESS.]**

New York, Dec. 1.—Dr. Cook hunted for a year by the newspaper sleuths the world over spent two weeks at Troy, New York within sixty miles of New York city writing the explanations of his claim he discovered the pole according to Benjamin Hampton, editor of Hampton's magazine today. Cook indulged other than an assumed name mingled with thousands of people but was unrecognized, said Mr. Hampton in an interview to the United Press today. Cook returned to England after writing the story.

FOR WINTER SPORT****Stoughton Ski Club Will Decide on
Erection of \$1,500 Ski Hill on
Friday Night.****[SPECIAL TO THE GAZETTE.]**

Stoughton, Wis., Dec. 1.—The Stoughton Ski Club will meet Friday evening to discuss the purchase of a steel structural ski platform at a cost of about \$1,500. The club is seriously considering the purchase of the largest steel platform in the world and if the proposed 110 foot slide is bought, Stoughton will have the leading ski hill in America. Stoughton has always claimed the home of American skiing and plans in keeping with this distinction are being considered for the season's work. This is Stoughton's second year as a member of the National Ski association. The new club, re-organized a year ago, has over one hundred members, including Gov. James O. Davidson. New officers will also be elected.

**CONGRESS TO HAVE
A BUSY SEASON****Congressman Each Predicts Busy Sea-
son at Washington With Many
Important Matters Stated.****[BY UNITED PRESS.]**

La Crosse, Wis., Dec. 1.—Congressman John J. Esch, who departed for Washington to be present at the convening of congress, predicts a busy season and aggressive campaign on the part of the republicans to push through the anti-injunction bill and pressure will be brought to secure the passing of the ship subsidy bill. Mr. Esch does not anticipate any great fight over the river and harbors bill.

**GOVERNOR PARDONS
CONVICTED WOMAN****Marquette Woman Dying in Prison Is
Given Her Freedom at Re-
quest of Father.****[BY UNITED PRESS.]**

Madison, Wis., Dec. 1.—Gov. Davidson today pardoned Mrs. Joseph Glass of Marquette, sentenced to the state penitentiary, Jan. 16, 1909 for five years after being convicted for robbery. The pardon was obtained by the woman's father, Lars Anderson of Green Bay, who bore a petition to the governor declaring the woman too ill to remain behind bars.

**FORGERS OF CHECKS

**SOCIETY GREET
MISS HELEN TAFT****Daughter Of President Hag Her Pre-
sentation At Afternoon Tea
Given At White House.****[SPECIAL TO THE GAZETTE.]**

Washington, D. C., Dec. 1.—Miss Helen Taft was formally presented to society this afternoon at a tea given by Mrs. Taft in the White House. The function was largely attended by representatives of official and resident society in the national capital. A profusion of bouquets made the East Room of the executive mansion fragrant and carried out the color scheme of pink, with a setting of willow vines. Several ladies of the cabinet circle hosted Mrs. Taft in receiving the guests.

**RED CROSS SEALS
FOR GOOD CAUSE****Over Fifty Million Were Sold Last
Year and Even Greater Number
Will Be Disposed Of
This Season.****[SPECIAL TO THE GAZETTE.]**

Washington, D. C., Dec. 1.—The Red Cross society, which has its national headquarters in this city, hope to realize a large sum of money to aid in its anti-influenza campaign from the sale of the Red Cross seals, which are sold through the country beginning today and continuing until the end of the year. The seals which are in the form of stamps are used extensively on letters during the holiday season. Last year more than 50,000,000 were sold and it is expected that an even greater number will be disposed of this year.

**VIROQUA MAN DIES SUDDENLY
IN A LACROSSE HOTEL TODAY****[BY UNITED PRESS.]**
La Crosse, Dec. 1.—Retiring in his usual health, Nels Thompson, living near Viroqua, died suddenly in bed at the Wisconsin House here, where he stopped to visit a friend while en route to his home after a visit in Minnesota.**STOUGHTON PACKING
A THOUSAND CASES****T. B. Earle Of Edgerton Finishes
Twenty Weeks Work in Dane
County City.****[SPECIAL TO THE GAZETTE.]**

Stoughton, Wis., Dec. 1.—T. B. Earle of Edgerton has just completed the steaming of 1,000 cases or about 300,000 pounds of tobacco. For twenty weeks he has employed an average of fifty hands paying about \$8,000 in wages in that time. Practically all but 175 cases of this tobacco has been shipped to Wheeling, W. Va., where it will be manufactured into "Mild Pouch" smoking tobacco.

**THREE INJURED
IN BIG DALLAS FIRE****Woman and Two Firemen May Die
From Being Run Over By Fire
Wagon Today.****[BY UNITED PRESS.]**

Dallas, Texas, Dec. 1.—A woman and two firemen were run down by a hose cart and probably fatally injured early today as the entire city department struggled to check the spreading of a fire that destroyed thirty-six dwellings with the plant of the Buell Planting Mills company. Intense water pressure seriously hampered the fire fighters. The loss is about \$100,000.

**TELLS OF BATTLES
IN AFRICA'S WILDS****French Soldier Says That His Regi-
ment Was Ambushed and
Suffered Heavy Loss.****[BY ASSOCIATED PRESS.]**

Paris, Dec. 1.—A letter from a soldier with the French column at Redjala near Oudja, Africa, states the French forces were ambushed in a ravine by Moroccans on November 17th, losing twenty killed, and forty wounded. The Moroccans also suffered heavily. There is no official confirmation of this report.

**WILL PURCHASE
ELECTRIC PLANT****City Of Stoughton Will Buy Plant Of
Stoughton Milling Co. For
\$18,700.****[SPECIAL TO THE GAZETTE.]**

Stoughton, Wis., Dec. 1.—The City of Stoughton will purchase the water-power and property of the Stoughton Milling Company for \$18,700. This purchase is being made with plans of increasing the municipal electric light and power system and operating the city pumps at the water works station by electrical pumps.

The city's offer of \$19,700 for this property was turned down about two months ago by the stockholders who planned on selling the water power to farmers residing along the Yahara between Stoughton and Lake Kegonsa. The farmers were to give \$25,000 for the dam and let out the water to drain perhaps about 1,000 acres of land along the nine miles of river territory north to the lake. Damage suits and litigation caused the company to refrain from this plan.

The property was then offered the city for \$20,000 but Mayor Holman refused. President Sisson of Columbus, this week signified his willingness to the sale at the city's price by sending in the contract with his signature. O. M. Turner of this city will now sign and the sale will have been made. Extensive alterations and improvements costing perhaps \$8,000 will be made in the spring by the city.

**CONFEDERATE MEMORIAL
UNVEILED IN VIRGINIA****[SPECIAL TO THE GAZETTE.]**

Rocky Mount, Va., Dec. 1.—A handsome monument erected in memory of the confederate soldiers of Franklin county was unveiled today with impressive ceremonies and in the presence of a large throng of spectators. Samuel W. Williams, attorney-general of Virginia, delivered the oration of the day.

MINISTERS TO HOLD A STATE CONFERENCE

Next Wisconsin Interdenominational Conference Will Be Held at Madison, December 8th to 7th.

Nearly all the Janesville pastors and possibly a lay delegate from each church are planning to attend the next Wisconsin Interdenominational Conference to be held in Association Hall at Madison, December 8th to 7th. This conference is held under the auspices of the Federation of Christian Workers and its purpose is to investigate the over lapping and overlapping in church economy. For some years a few denominations have united and a committee of adjudication has determined the location of churches for these denominations in given localities. This conference hopes to interest new denominations and systematize the church of the entire state.

Those who have charge of the conference are among the most noted and ablest of educators and church workers in this section of the country. The officers of the conference are Pres. W. O. Carrier of Carroll College, Wausau; Dr. Perry Miller of Kenosha and Rev. Dr. H. A. Miller of Madison. The Rev. Dr. C. E. Bacon of Chicago, Secretary of the Federal Council for the Middle West, Pres. Samuel H. Hays of New York City, President of the Federal Council, Pres. O. P. Davis, of the Chicago Theological Seminary, Prof. J. A. Ross of the University of Wisconsin and Bishop Rockwell H. Weller of the Protestant Episcopal church, are among the experts who will be on the program.

A committee under the direction of Dr. D. W. Hulbert, superintendent of the Wisconsin Baptist Association, has been out for several months and will present the facts as to the location, numerical and financial strength of various denominations and types of work being done by them. Another committee of which Prof. C. J. Galt is chairman, will present a series of maps setting forth the location of churches of Sunday schools, the distribution of foreign population, the "wet" and "dry" territory and a series of charts showing the location and relative strength of all the various movements represented within the state.

Women's Suits Underpriced.

A rare opportunity to secure a wonderful value in a new suit is offered by our present offer of \$25 and \$30 handsome suits of this season's models at \$18.75.

"B" JUNIOR'S CONTEST HELD YESTERDAY

Dalton's Team Secured the Highest Number of Points With Hayes Second.

Yesterday afternoon the "B" Juniors held their monthly athletic contest in which Dalton's team won the highest number of points, with Hayes, second, and Garbutt's third. The highest individual score was made by M. Dalton, 15 points, followed by M. Dalton, 13 points, and Garbutt's third.

The three best records for each event were as follows: Standing broad jump—M. Dalton, 7 ft. 1/2 in.; F. McElroy, 7 ft. 1/2 in.; F. Blodgett, 6 ft. 11 in. Snap under—Dalton, 6 ft. 10 in.; Blodgett, 6 ft. 1 in.; L. Hayes, 5 ft. 8 in. Running high jump—McElroy and R. Garbutt, 3 ft. 10 in.; Blodgett, Dalton and W. Rau, 3 ft. 8 in. Pull up (chin)—McElroy, 10 times; Blodgett and Garbutt, 8. Three lap potato race—Dalton 18:25 sec.; F. Wolf 18:35 sec.; McElroy, 19:15 sec. The ten best individual athletes as shown by points: M. Dalton, 297; F. McElroy, 279; F. Blodgett, 260; L. Hayes, 241; R. Garbutt, 238; F. Wolf, 232; W. Rau, 207; P. Richard, 194; C. McElroy, 187; S. Garbutt, 185.

The "A" Juniors will hold their meet this afternoon.

Harold H. Myers et al to Leigh H. Gilbert, \$5,500; pt. lot 1, 2-25, original plat, Janesville.

The Hen and the Girl.

At Bordeaux, in France, a rich lady lost a diamond ring on the street. A few days later a little girl who assisted the cook in a boarding house was sent to market for a chicken. When she brought it home she was told to dress it, and in doing so she found the lost ring in its crop.

The cook, the landlady, the man who had sold the chicken all claimed the ring, and the case was taken into court. There it was decided that it belonged to the girl, and the loser gave her \$30 for finding it. The hen who wants to get herself praised, dead or alive, will look around for lost diamonds.

Immune to Yellow Fever.

That the natives in Bahia, Brazil, are far more immune to yellow fever than the foreign population is proved by the fact that of the 172 cases recorded there in 1909 75 per cent. were among foreigners, who represent more than three per cent. of the total population. Of all the cases of yellow fever in Bahia last year 51.08 per cent. resulted in death.

Hindoo Idea of Reverence.

In India the printed book is regarded as a vulgar, if not irreverent, and no devout Hindoo would allow his sacred writings to be contaminated by contact with leather prepared from the hide of some animal's dead body. A leather-bound copy of the Bible is for him a remarkable illustration of Christian irreverence.—The Churchman.

THINKS HE PUT ONE OVER ON THE COURT

John Simons Exhibited Cash to Pay Fine and Kept It—Has the Sheriff Still to Reckon With.

John Simons, a lengthy citizen of German ancestry who has been causing the police considerable trouble of late, created a disturbance at the Northwestern and St. Paul depots last evening and landed in the lock-up. In municipal court this morning he entered a plea of not guilty and stood trial. He was promptly convicted on evidence offered by Officer Champion Simons, repeatedly interrupted the evidence of his "turkey"—a flour sack containing his wardrobe—and contradicting some of the testimony. When sentenced to pay a fine and costs totaling \$6, the prisoner opened his purse, counted out the money, and then put it back with a terse announcement that he guessed he'd hold down for ten days at the expense of the county and spend the cash for new shoes.

On the way to the bastille Simons chuckled over the way he fooled the court. "In an actor, I said I had you seen 'em robbing for that money? That 'em didn't get it, you bet!" (Before being taken into court Simons had insisted on brushing his hair, refusing to appear other than at his best before "THE HONORABLE.")

Shortly thereafter, learning that Simons could have paid his fine and didn't, will probably put him on a field diet of "shadow soup." The authorities always "hang last" in the instances of this kind.

Charles Arner was unable to pay a fine and costs totaling \$6 and went to jail for eight days.

ANOTHER THAW IS IN THE LIMELIGHT

Notorious Bounder William, Weds Miss Virginia Bradley at the St. Regis, New York.

(Special to the Gazette.)

New York, Dec. 1.—The gorgeous white and gold ballroom of the St. Regis Hotel was the scene of a gay and brilliant gathering today at the wedding of Miss Gladys Bradley and William Thaw, 3rd, both of Pittsburg.

The bride, whose beauty has attracted much attention in New York, and elsewhere, is the daughter of Mr. and Mrs. Charles Henderson Bradley and a sister of Mrs. Anthony J. Drexel Middle of Philadelphia.

Mr. Thaw, the bridegroom, is a nephew of Harry K. Thaw and like the latter he has managed to keep much in the limelight through his numerous escapades and his reckless spending of his share of the Thaw millions.

His escapades have been widely exploited, from his brandy-and-soda drinking match in a Pittsburg club to his trial marriage to a Soudanese woman in Egypt. Several years ago his mother, adjudged to be insane, had him adjudged incapable of managing his own affairs on the ground that he was a "common drunkard," but the proceedings were stopped on the promise of the young man to reform. After this he spent some time on a ranch in Wyoming.

Weds Italian Officer.

Washington, D. C., Dec. 1.—A fashionable wedding of interest to both naval and diplomatic circles took place today, when Miss Eleanor Terry, daughter of Rear Admiral and Mrs. Sime W. Terry, became the bride of Lieutenant Filippo Campello, an officer of the Italian navy who has been attached to the Italian Embassy in this city.

The wedding ceremony was performed at noon in St. Thomas's Church and was followed by a breakfast and reception at Ranelagh's. The bride had as her matron of honor her cousin, Mrs. Consuela of Annapolis, and commander of the Italian Embassy, Marchese Negroni, attended his countryman as best man. Lieutenant Campello and his bride will sail for Italy next week.

BELLS ON WOMEN'S HOSIERY

Tinkle as Breezes Bare Them to View, Particularly in Vicinity of Big Buildings.

New York.—"Bells on Her Fingers and Bells on Her Toes" may become literally true if progress continues in women's hosiery. It is almost true now, as may be seen from some of the latest sensational designs from Europe.

"Classey" misses and madames in the continental capitals are actually wearing their hearts as well as their hosiery on their toes. Some of the latest stockings are set with minuscule bells, so designed that the wearer may embellish them with photographs of those dear to them.

Many of the new styles are stockings that tinkle; they have bells on them, little ones were worn on garters, but now they are in a position to be easily seen, particularly in the vicinity of the draughty flatiron building or Longacre square.

The bells may be arranged along the sides of the hose, or down the front. Bells also may be attached to the shoes, and some even have one tiny tinkle under the high instep. This is getting pretty close to "Bells on Her Toes."

Not Always.

A man is seldom as bad as he is painted or as good as he is whitewashed.—Boston Globe.

ENTIRE CHANGE OF PROGRAM AT NEW Vaudeville Theatre

A good, strong bill that will amuse and entertain.

Harold Yates
In violin imitations and singing, talking and dancing act.

Hedge & Dolly Holmes
In a clever taking sketch, witty songs and graceful dancing.

In addition to vaudeville there will be two new reels and two new illustrated songs.

NEW Vaudeville Theatre
W. Milwaukee St.

WEDDING ANNIVERSARY OF THE ROOSEVELTS

(Special to the Gazette.)

New York, Dec. 1.—Many messages of congratulation from friends throughout the country reached Sagamore Hill today to remind the former President and Mrs. Roosevelt of their twenty-fourth wedding anniversary.

GEMS WORTH OVER MILLION

Mrs. Bagatelle to South African Visitor Who Wanted No Protection—Hostess Warned.

Edgewater Park, N. J.—General and Mrs. E. H. Grubb emitted a sigh of relief when Mrs. John Joel of South Africa left their residence and took with her a necklace valued at more than a million dollars.

This necklace has caused the Grubbs too sleepless nights because to Mrs. Joel the gem was of so little value that she refused to place it in a safe deposit vault or allow her brother-in-law, General Grubb, to notify the police that the jewel was in the house.

Mrs. Joel is the sister of Mrs. Grubb, and is the wife of one of the former partners of African diamond king Barney Barnato. Her husband is a trustee of the De Beers company, and is reputed to be worth more than one hundred million dollars.

When Mrs. Joel arrived at Edgewater park some time ago she carried in her jewel case gems worth more than one million five hundred thousand dollars. General Grubb stood guard at night over the jewels.

HICKORY TREES DYING, TOO

New Jersey Chestnut Blight Spreads to Other Species—Believed to Be Fungus Disease.

Summit, N. J.—With the chestnut tree blight not having gone far enough in its work of utterly destroying the tree in this state to be yet matter of common knowledge, tree experts in this vicinity say they have discovered signs that point also to the destruction of its companion tree, the hickory. Hickory trees in this vicinity and in Essex county have been exhibiting signs of the blight, the precise nature of which, however, remains unexplained.

Only here and there are to be found as yet signs of destruction by the pest, whatever it is, but the instances are sufficiently numerous to convince observers that probably some fungus, as is the case with the chestnut tree, has attacked the trees.

So far as outward signs go the tree that is affected simply dies. It combats the parasite as best it can, sometimes with success for more than one season, indicating only by an earlier fallow of its foliage that something hidden is feeding on its vitality. The final act is the fading of the leaves or the utter denuding of the branches of foliage.

Experts are of the opinion that on examination it will be found that a fungus, similar to the one lately discovered as the enemy of the chestnut, is attacking the hickory trees. At the present state of the attack only a microscopic test by experts would reveal the facts and the existence of the blight is so new that such an examination has not been made. That the fungus, if it turns out to be such, will eventually prove as fatal to the hickory as to the chestnut is greatly feared. The future may find New Jersey bare entirely of either tree.

My commission expires July 12, 1914.

THE NEW NATIONALISM.

Had Colonel Roosevelt been successful in the New York campaign, the "New Nationalism" which he attempted to exploit, might have been an issue in 1912, but the doctrine was so new that it had not gained a foothold, and its author is slightly handicapped as a promoter.

The Governor's conference, now in session in St. Louis, has taken occasion to denounce the scheme as dangerous, because it ignores state rights and centralizes power in the hands of the federal government.

"This is what Mr. Roosevelt desired to bring about, and while his sincerity may not be questioned, his judgment has already been severely criticized. During his progressive administration he discovered that boundary lines were a check to ambition in attempting to regulate corporations doing an interstate business, and while not prepared to adopt socialism, to the extent of advocating government ownership, he did want authority for federal control.

The governors of the various states very naturally rebel, and in doing so they express popular sentiment. The "New Nationalism" is a fascinating title, because it has in it the ring of reform, but deprived of all frills and sentiment it would simply mean the introduction of a mild monarchial form of government.

"This is what we had to some extent during the last Roosevelt administration, for his word was law on most propositions. Wisconsin has enjoyed the same experience for some years because of personal politics.

The frenzy for regulation, which has absorbed thought and attention, has caused some people to question

whether as a people we are capable of self-government, but while we have not yet passed the experimental stage the nation is not yet ready to abandon the experiment.

THE SQUARE DEAL.

The Engineering Magazine is in close touch with the industrial world, and recognizes the importance of better sanitary conditions in the shops and factories. The following article, in the December number, is a plea for the wage earner, which should appeal to every thoughtful mind.

"Let us therefore approach the principle of the fair deal with our imagination, our sympathies, our sense of fairness alert. The great bulk of the population of the United States, both relatively and numerically, a hundred years hence will be descended from those who are the wage-earners today. What our industrial officers make now of the working army, will make our future nation, not dreamthoughts and fortified canals.

"The wage earners are our people and our nation; if not its backbone and skeleton, if not its brain, nevertheless, its important flesh and blood. Moreover the burden on them is both exalted and heavy. It is the man closest to their broad and butter who generally have correct instincts as to remedies. It is the flesh that quivers with physical pain, not the brain nor the skeleton. It is on these workers that the duty devolves of bringing up respectable families on a small and precarious income. There is not room for all at the top, even if all were competent to climb to the top, and one of the great problems is to make today bearable without taking away the hope of a better tomorrow.

"A boy apprenticed to a trade ought to feel confident that he has not been allowed to enter a race in which even before he started he was hopelessly outclassed; he ought to see before him a reasonable certainty of tenure of position, of definite and increasing wages per hour until he has reached a maximum for his trade and locality; he ought to be assured of decent, helpful companions; he ought to be certain that all those things essential to his health and safety which he cannot do himself were being done for him.

"As to the man, the worker, without whom industry would collapse, all conditions ought to be standardized. Drinking water ought to be germ-free, destroying dust should surround moving machinery, work illumination should be adequate, not ruinous to eyesight. Working hours should be reasonable and without overtime except in great emergencies, means should be provided for ascertaining directly his needs, his wishes, of listening to his recommendations."

It has been suggested that the tax forests might be used to advantage in behalf where they claim a larger population and more manufacturing industries. There is one thing certain and that is that Janesville does not want them.

This sale of the Christmas stamps for the Anti-Tuberculosis association is a cause worthy of support and the general public should do their share in this great labor by purchasing stamps for their Christmas packages and letters.

Lawyer Brandeis of Boston should be employed by the railroads at a million dollar salary, to show them how to save a million dollars a day. He claims to know all about it and the knowledge is too valuable to be bottled up.

So Dr. Cook has at last decided that he will admit he faked his discovery of the North Pole, but puts in a mental reservation that he was crazy when he did it and thought he had really been there. Poor doctor!

If Mr. Hills wants to change his interview so as to read that the country is to have a wave of prosperity, why not let him. If hard times come he can simply say he was misquoted again.

President Diaz was inaugurated in to office again today down in Mexico and the ceremony was a quiet one owing to the present disturbed conditions of affairs in our sister republic.

Shop early is the cry of the merchants and clerks and it is to be hoped the public will follow their plea and act in accordance with their wishes.

With Christmas but twenty-five days off the average small boy or girl is mighty good these days in anticipation of the visit of Santa.

Thus far this has been a good season for out of door work. It is seldom that building operations can even extend into December in this climate.

Uncle Walt

THE POET PHILOSOPHER

By WALT MASON.

(Copyright, 1909, by George Matthew Adams.)

"When I was digging ditches, I used to long for riches, I thought that I'd be happy if I had coin to burn; I saw the wealthy speeding along the road unheeding; they blow PIPE DREAMS in more for stogies than I know how to earn. When I was leading gravel, I longed and longed to travel, to scold in palace coaches, or sail across the sea; I said: 'I have to labor like thunder while my neighbor is blowing in his bundle, as busy as a bee.' And now with wealth I'm loaded; alas! it seems corroded; it doesn't seem to glitter the way it ought to do; my life is soft and easy, but I am fat and wheezy; I spend my days in yawning and I am tired and blue. It's trowsome to be wealthy; it's better to be

poor."

wealthy, with springing, active muscles, no spavins on your legs; I wish that I could travel back to the days of a ravel, when I could cut a bushel of good old hair and eggs!

Heart to Heart Talks.

By EDWIN A. NYE.

L'ER IDEAL HUSBAND.

A young lady of Killarney, Ireland, writing in the Irish Packer, says she wants a husband, but he must have these qualities:

As handsome as Apollo.
As courageous as Dwyer.
As subtle as Machiavelli.
As patriotic as Emmet.
As enterprising as Loyola.
As patient as Job.

Even this catalogue of virtues will not suffice. She says he must smile like a seraph when baby blows soap bubbles through his lips. He must sweetly let his wife sharpen her pencils with his razor and must accept with joy the bringing of mother-in-law and six sisters-in-law to live with him.

In short, the woman wants an archangel for a husband.

A handsome man has his drawbacks. He is likely to be vain or weak. And some other woman may work her designs on so much pulchritude. To have him as handsome as Apollo would be to require ceaseless guardianship.

His wife might lose him. Courage in its proper place is a fine virtue in a husband, but to be as brave as Michael Dwyer might endanger his precious life.

And enthusiasm like that of Loyola is apt to lead to excesses such as one's wife may deplore.

Patriotism? That is a good virtue also, but might it not take the tendency which leads a man to be "out with the boys" altogether too much after 9 p. m.?

And subtlety? What in the name of common sense does she want with that quality? Why, the woman would be like to go crazy trying to find out her husband's secrets.

Patience, of course, is a great virtue in a man, only if overindulged it is likely to grow tiresome. The husband who does not occasionally "blow off steam" or who does the bidding of my lady after the meek fashion of my lady's lap dog will finally grow despicable in my lady's eyes.

Now—Provided always the young Irish lady is not making fun and really pictures her ideal—

She is likely to marry a homely man who is neither specially brave nor patient nor subtle—just a frank, honest, everyday sort of man who thinks his wife the best woman in the world and who occasionally gets mad and lets go, after his kind, with some noise about it.

Matrimonial harness is not made to fit cherubim or seraphim.

CANADIAN GUNNER TO HANG TOMORROW

Thomas Allen Will Forfeit His Life For Murder of his Commanding Officer.

[SPECIAL TO THE GAZETTE.]
Victoria, B. C., Dec. 1.—(Unless saved by executive clemency) Thomas Allen, a gunner of the Royal Canadian Artillery, will die on the scaffold in the local provincial jail tomorrow.

The crime for which Allen was sentenced to death was the murder, on August 1, last, of Captain Peter Edson, his commanding officer. The crime was committed at Work Point barracks. Allen shot the captain down from the window of the barracks when he was leaving the company's office, fifty yards away. The soldier harbored a grievance against his captain owing to a sentence of imprisonment previously imposed upon him for violation of the army regulations.

Negro to Swing.
Charleston, S. C., Dec. 1.—Tomorrow is the date set for the execution of Daniel Duncan, the young negro convicted of the murder of Max Lubelsky, a King St. merchant, last June. Duncan beat Lubelsky's head to a pulp, and less than three weeks later returned to the store and attacked Lubelsky's widow.

SENATOR LODGE IN HARD FIGHT FOR TOGA. AT LEFT, BUTLER AMES. AT RIGHT, SENATOR HENRY CABOT LODGE.

Boston, Mass.—The senatorial fight in Massachusetts becomes more heated daily. With the withdrawal of Gov. John L. Bates in favor of Senator Lodge and the withdrawal of Curtis Guild, the fight centers between Henry Cabot Lodge and Congressman Butler Ames.

Senator Lodge loses another vote by the recent victory of Thomas P. Curran, democrat over Representative Leonard G. Roberts in ward 21. This increases the democratic representation in the house to 112, with 127 republicans and one socialist. Gates, republican, is leading in the recent in the Third Worcester senatorial district, and if he is finally declared elected the senate will stand 26 republicans to 14 democrats. The legislature in joint convention will then contain 133 republicans, 126 democrats and one socialist.

With all voting Senator Lodge must have 141 votes to win. But a canvass

showed 13 republicans openly against him, which would leave him only 140 republican votes, one less than a majority.

This alignment, if adhered to, will mean a deadlock.

One democratic senator-elect, James F. Powers of South Boston, is quoted as saying that if it is to be a republican United States senator he proposes to vote for Lodge.

The socialist member of the house, Charles H. Morrell of Uiverhill, will vote for Mr. Lodge. He will cast his vote for a socialist if he carries out his present intention.

Every vote possible is being pulled to get every republican into line for the senator, and although on the surface it looks a little shaky for him, his friends say that he will win on the shown down by a small margin.

Prominent republicans are saying that in case of a deadlock there will be a republican candidate against Mr. Lodge.

Count Tolstoy Criticizes Dante.
Count Tolstoy, criticising Dante, characterized the productions of the Italian poet as cloudy and unintelligible.

The Limit.
About the only time a man objects to being overrated is when he pays his taxes.

O'Rourke (down the well)—Shure, an' throw me down the lid as a rope.

O'Rourke—There 'ez are. Can yez reach it?

O'Rourke—'Tis too short entirely. Pull it up an' throw me down the other lid.

O'Rourke (down the well)—Shure, an' throw me down the lid as a rope.

O'Rourke—There 'ez are. Can yez reach it?

O'Rourke—'Tis too short entirely. Pull it up an' throw me down the other lid.

The Easterner ("way out west")—You fellows out here are supposed to be excellent shots. Do you practice shooting at marks?

The Westerner—Sure, if do marks gits too fresh we do.

Knew of One.
"Suggestion? If you ever hear of a real cure effected by 'suggestion?'" "I personally know of one. I once suggested to a young fellow that if he didn't want to have a big dog chasing him off the premises he'd better quit coming to my house, and it cured him of the habit."

Chilblains

The first frost brings on the first chilblains. Are you suffering the tortures of sore, itchy feet? There are a hundred remedies, yet the only sure relief is to use a remedy specially made for chilblains—Rudger's Chilblain Cure, 25 cents. We have sold it for ten years. It follows the itch at once, takes out the swelling and inflammation and never fails. Rudger Drug Co., Milwaukee and River St.

SWEET, CRISP, DELICIOUS.

A Fine Christmas Gift

Why don't you give a new set of teeth to your wife, sister or mother as a Xmas gift? Nothing is more acceptable for her comfort, good looks and health.

Dr. F. T. Richards
Office over Hall & Bayles.

Dainty Laces

Carefully Cleaned

Ordinarily, people fear to send their laces to cleaners. So rare and beautiful laces remain unused and unenjoyed. One can hardly blame them for not wanting to send them to some cleaners.

We base these facts on what our customers have told us. So we set to work to perfect a method to skillfully clean lace. And we succeeded. We ask you to find out for yourself by giving us a trial order.

THREE MOTIONS FOR NEW TRIALS DENIED

By Judge Grimm in Circuit Court This Afternoon. No Other Matters Before Tribunal.

Motions for new trials in three cases were denied by Judge Grimm in circuit court today. The cases were those of C. R. Wilson vs. Isaac Elliot, et al, in which the plaintiff secured judgment of the principal and interest due on a note; Floyd Murdoch vs. the Interurban Ry. Co., and Adah R. Brunson vs. the Interurban Ry. Co.

BRIEF LOCAL NEWS.

30c worth of Liquezone soap 25c, Saturday. McCue & Huss.

The regular annual convocation of Janesville Chapter No. 5, R. A. M., will be held at Masonic Temple tonight. Election of officers.

Soap sale. Six the cake Liquezone soap 25c, at McCue & Huss drug store, Saturday.

Attend the Baptist Christmas Sale and Chicken Pie Supper, Dec. 7th.

Buy Miss Hollis a new outfit at the Baptist church sale, Dec. 17.

Your friend would enjoy a year's subscription to the Daily Gazette about as much as anything you could send for Christmas.

Choice of open stock dinnerware, Chinese pattern, for free premium Friday and Saturday. Union Pacific Tea Co.

That boy or girl would dearly love to hear from home every day the many little items you couldn't possibly write in your letters. The Daily Gazette for a year would make a splendid Christmas gift.

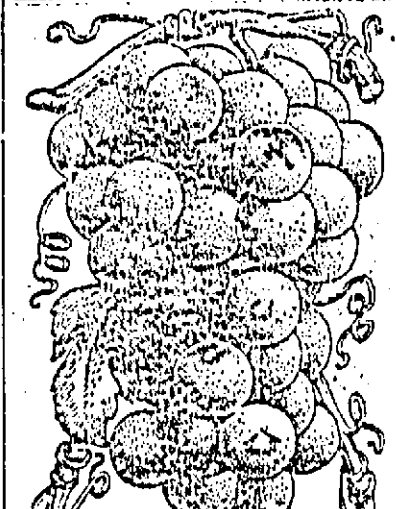

Circle No. 8 will meet with Mrs. Allen, on High street Friday afternoon at 2:30. All members please be present.

Harry Mooradian will be at Kluba's till Saturday with a beautiful line of Oriental rugs. It will pay you to see these rugs before he leaves town. Prices are remarkably low.

Remember the sale and supper at the Presbyterian church, December 7. All having finished articles, please bring them to the church tomorrow afternoon.

Celebrity in Jail: Charles Winchell, who, upon his return to Beloit from the west was taken into custody on a charge of wife abandonment, and his trial set for Dec. 5, was brought here yesterday to spend the intervening time in the county jail.

J. E. Corfield of Highland Center transacted business here yesterday. E. M. Ladd was here from Edgerton last evening.

Important properties of the Grape are transmitted by **ROYAL Baking Powder**

Absolutely Pure to the food. The food is thereby made more tasty and digestible

BRIEF LOCAL NEWS.

Interurban Car Disabled: The motor on the Interurban car due here about six o'clock last evening broke down at Monterey and the freight car was called upon to run down from the city and tow it in. Conductor Clark and Motorman McCall were in charge.

Miles Yakole's Property: A packet of letters and personal papers, including a passport and receipts for deposits in the First National bank of Pittsburgh, all belonging to one Miles Yakole, an Austrian, has been picked up at the majestic theatre and turned over to the police department.

Passenger Agents Here: W. H. Oran, travelling passenger agent for the Chicago and Eastern Illinois railroad, and M. E. Harlan, who holds a like position with the Northern Pacific road, were in the city on business today.

Complete Paving: The asphalt macadam paving on Jackson street has been completed and the workmen have cleared up the last vestige of the long summer's work. All that remains is to lay the iron covers for the gutters crossing the street to have the job complete. But for the fact that a car of top dressing stone was lost by the railroad it would have been finished before Thanksgiving.

Large Realty Transfer: By the terms of an instrument filed with the register of deeds today Olaus M. Haugan and wife of the town of Beloit, convey to Anna H. Flinney for a consideration of \$13,000 the southeast 1/4 of section 3, Town 1, North, Range 12 East.

Christmas Thoughts. The early Christmas shoppers will be delightfully surprised at the readiness of this store. Booth, special displays are arranged offering some remarkable bargains.

T. P. BURNS.

INSURANCE VO'S OFFER WAS NOT SATISFACTORY

And Emil Othoudt, who had Leg Broken in Accident at Telephone Co.'s Building, Goes to County House.

Emil Othoudt, who has been at the St. Charles hotel since his left leg was broken at the ankle in an accident with the derrick at the Wisconsin Telephone Co.'s new building nearly three weeks ago, refused to accept an offer of \$108 plus the payment of the doctor's bills in full settlement from a representative of the company with which Contractor Hager insured all his men, and having no present means to meet his board bills, went to the county house today. He acted upon advice of T. S. Nolin, his attorney. Though he is able to get about on crutches, it is probable that Mr. Othoudt will be unfit for any labor for several weeks.

OBITUARY

James Kelleher. The funeral of James Kelleher, formerly a resident of this city, was held Tuesday morning in Bloomington, Ill., where the deceased died in a hospital. John Kelleher, a brother, and son, Mort, have returned from Bloomington, where they attended the funeral. Mr. Kelleher was sixty-two years of age and was born in Ireland. He was unmarried. Three sisters, one of whom Mrs. Johanna Nash of this city, and five brothers besides John Kelleher of this city, survive him.

Doris Babcock. Funeral services for Doris Irene Babcock, the infant daughter of Mr. and Mrs. L. A. Babcock, were held from the family home at 703 Fifth avenue at 9:30 o'clock this morning. The services were conducted by the Rev. J. C. Hazen. The remains were tenderly laid to rest in Oak Hill cemetery.

ALFRED CANTWELL HURT IN WRECK AT CHICAGO.

Former Resident May Lose Both Legs According to Dispatch Received Here This Morning.

Alfred Cantwell, son of William Cantwell who formerly resided here and nephew of Mrs. James Cantwell who lives on Pine St., was seriously injured in some wreck or explosion at Chicago yesterday according to a telegram sent here by a sister living in Milwaukee this morning. The dispatch was not shown to Mrs. Cantwell as she is critically ill with heart disease. It is stated that the surgeons might succeed in saving both legs but have no particulars regarding the accident. Alfred Cantwell is claim agent for one of the railroads, with headquarters in the metropolis.

BRIEF PERSONAL MENTION.

Edward Amorphi is in Milwaukee. J. J. Fletcher is a Milwaukee visitor. A. W. Allison is in Milwaukee. George H. Swift of Ft. Atkinson was in the city yesterday. J. P. Mooney of Broadhead transacted business here yesterday. Miss Gertrude B. Caswell of Ft. Atkinson was a visitor here yesterday. Geo. D. Simpson is in Madison today.

Attorney E. H. Peterson went to Chicago today to attend the land show.

A. E. MacGe was in Edgerton on business today.

Miss Alice Farnsworth and Mrs. Charles Atwood are spending the day in Chicago.

C. P. Boers was in Milwaukee today on business.

Miss Agnes Griebel is visiting in Chicago today.

Miss Mary Mount is spending the day in Chicago.

H. M. Weber made a business trip to Chicago today.

Rev. J. W. Laughlin went this morning to Pardooville, Wis.

Dr. Charles Sutherland leaves tonight on a hunting trip near Mellen, Wis.

Miss Mae Treat was in Chicago today.

Mr. M. P. Carroll spent the day in Chicago.

James Harris is in Chicago on business.

Mrs. James Fifeid is a visitor in Chicago today.

Mrs. C. W. Jackman was in Chicago today.

Rev. David Beaton is spending several days in Chicago.

Mr. and Mrs. Guy P. Goodel of Portage were visitors here last evening.

H. P. Ratcliff of Shoplery, was a visitor here last night.

Home Course In Health Culture

XI.—Hygiene of the Nose and Throat

By EUGENE L. FISK, M. D.
Copyright, 1910, by American Press Association.

TO the artist or sculptor the nose is an architectural affair, adding beauty and distinction to the countenance accordingly as it conforms to his ideals of line and harmony.

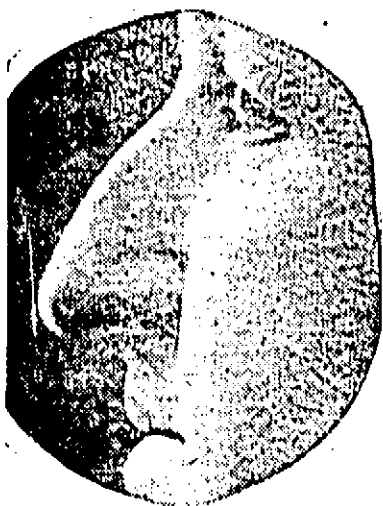

To the average man the nose is simply the organ of smell and an apparatus through which he breathes and occasionally catches cold.

To the physician the nose is one of the most important organs of the body. When in a healthy condition it is a veritable "guardian of the threshold," warning us against tainted food, filtering our air and destroying microbes of disease, protecting the delicate throat and lung tissue from cold, dusty air by filtering, warming and moistening it and finally exerting a most important influence in regulating the body heat.

Importance of Proper Breathing.

The nose is a very complicated and important apparatus, and any disturbance of its functions, if allowed to persist, is likely to have serious effects.

The most frequent cause of nasal obstruction is the growth of adenoid

THE NOSE IS ONE OF THE MOST IMPORTANT ORGANS OF THE BODY.

tissue in the roof of the throat just behind the nasal septum. This not only obstructs the nasal opening into the throat, but interferes with the proper growth of the septum and causes a deformity, "deviation of the septum," which is not apparent externally, but often seriously obstructs the nasal passages in later life. This adenoid tissue is very common, even among healthy children, and tends to shrink up and disappear when the cavity of the throat rapidly enlarges at the age of puberty, but the deformed septum remains and can only be corrected by operation.

The folly of allowing adenoids to remain until they atrophy and disappear is quite apparent. Not only is the child's breathing capacity and chest development retarded, but remote ill effects reaching into later life often supervene if the child is fortunate enough to survive the perils of frequent colds, bronchitis and consumption. It should be remembered that if the nose is obstructed by adenoids, a deformed septum or enlarged turbinate bodies mouth breathing results, and the air is not properly warmed and filtered before reaching the throat and lungs. Such obstructions are responsible for a vast number of throat and lung troubles.

Danger of Ear Disease.

The eustachian tube, leading from the middle ear, opens just behind the outer margin of the nasal opening into the throat. These orifices are often pressed upon by adenoid tissues, and proper ventilation and drainage of the tubes are prevented. This leads to deafness and sometimes to abscesses of the ear and brain.

The mucous discharge from the nose so frequently present when adenoids exist is also likely to infect the eustachian tubes, with similar results.

If the nose and throat have not been properly cared for in childhood and deformity of the septum or obstruction from other causes exists expert advice should be sought and proper nasal breathing restored, if possible.

The tonsils are now regarded as useless and often dangerous structures. They should be removed, as a rule, when adenoids are taken out and especially when there is a history of frequent sore throat or tonsillitis. Enlarged tonsils are naturally irritating and obstructive, but often not so dangerous as smaller inherent or submucous tonsils, which collect germs and infectious matter. It is now believed that such tonsils are often responsible for attacks of rheumatic fever, and a history of such trouble should always call for removal of the tonsils, whether or not they have shown any evidence of disease.

Prevention of "Colds."

The most serious diseases of the throat and lungs, including consumption, often have their inception in a common cold.

While nearly all diseases of the air passages are directly caused by germs,

About as much for your money as any gift you could think of this Christmas—a year's subscription to The Daily Gazette.

there must usually be present a lack of resistance, either general or local, before germs can give rise to disease.

In some cases a tendency to colds is the expression of a constitutional condition, such as gout, rheumatism, neurasthenia, etc. These conditions should always be sought for and properly treated if present.

Local lack of resistance may be caused by the nasal obstruction and irritation I have already referred to, and their correction is necessary before permanent relief from colds can be obtained.

Dangers of Pampering.

Overdressing for cold weather and overheated living rooms are often responsible for frequent colds. Medium weight underwear should be worn and the outer clothing adapted to changes in the weather. This does not mean that we should leave off overcoats in the winter time and be uncomfortably chilly in an endeavor to harden the system. Old people especially should dress for comfort in cold weather, but comfort can be had without wearing heavy mufflers around the neck and heavy garments in ordinary winter weather.

Value of Bathing.

The morning cold bath is a valuable measure for cultivating a resistance to colds. This should be taken in a warm room, and if the bath is not robust should stand in a tub of hot water and sponge or spray the body with water sufficiently cold to cause an agreeable glow or reaction after the first shock, but not cold enough to cause blueness of the skin or chilliness and depression following the bath. Rubbing vigorously with a coarse towel will hasten the reaction and improve the circulation. When the cold bath cannot be borne, cool sponging of neck and chest will prove beneficial and protective.

Importance of Ventilation.

The sleeping room should be well ventilated, but the sleeper should be protected from drafts. The temperature of the living room should never rise above 70 degrees F.; at 65 degrees is the safest point. Dryness of the air should be avoided by supplying moisture. A pan of water placed on the stove or cloths saturated with water and placed near radiators will answer the purpose if there is no furnace with a water reservoir attached.

Avoid dust and dampness in the house. Avoid heavy upholstery, curtain hangings, carpets, etc., which only serve to gather dust and germs. Stained or polished floors, rugs and light washable curtains are far more healthful.

Treatment of Nose and Throat.

Great caution must be exercised in interfering with the natural processes in the nose. Frequent douching and spraying with antiseptic solutions is often very irritating and injurious. In some old standing cases of catarrh the nasal douche is necessary, but its use should be directed by a physician. The careless use of the douche may lead to infection of the ear. When a cleansing spray or douche is necessary, the following should be employed in preference to strong antiseptic solutions or advertised catarrh cures:

To a pint of warm water and one teaspoonful of a powder composed of equal parts of sodium bicarbonate, sodium borate and sodium chloride. This may be used warm in an atomizer when the nose is dry and crusty or clogged with snot and dust.

In blowing the nose, especially after a douche or spray has been used, close one nostril and blow with moderate force through the other. The usual method of partially closing both nostrils and forcibly blowing often causes infectious matter to be blown into the ears. After using a nasal douche exposure to the open air should be avoided for at least half an hour, as the nose has been deprived of its protective mucus and thus is necessary for the means to reform. If an oil spray is used following the douche this precaution is not necessary.

When the nostrils are irritated or inflamed from discharges, and especially if there is any ulceration, the ordinary official ointment of the yellow oxide of mercury is an excellent preparation for use. It may be diluted with an equal part of vasoline. This preparation is cheaper and safer than advertised salves or ointments.

Absorption of poisonous matter from the intestines, due to constipation, is a frequent cause of nasal congestion. Cure of the bowels is extremely important as a preventive measure.

Treatment of a Cold.

The possibilities in a common cold are such that the wisest course is to call a physician and be regularly treated. Quick remedies are dangerous. Remember that the brain is in close relationship with the nose and its necessary cavities and that inflammation and infection of these cavities, if not recognized in time, may lead to abscess.

"Cold cures" often mask the symptoms without curing the disease. Heavy doses of whisky and opium often do more harm than good.

In emergencies when a physician is not within call the following measures will often check a cold:

First.—A mustard foot bath as hot as can be borne, lasting twenty to thirty minutes, the body being enveloped in blankets to induce a profuse perspiration. Hot lemonade, hot flaxseed tea or tea to thirty drops of spirits of camphor in a glass of hot water will assist the action of the bath.

Second.—A brisk enema, as castor oil, calomel, etc.

Third.—The neck and chest should be rubbed with camphorated oil or liquid mustard plaster.

Further than this the treatment of a cold is in the province of a physician.

He Doesn't Get Far.

The world has little use for the man who needs an ear trumpet to hear the call of duty.

Home Course In Tree Preservation

By JOHN DAVEY.
Father of Tree Surgery.

III.—The Crime of Tree Butchery.

(Copyright, 1910, by American Press Association.)

IT is utterly impossible for the human mind to form even an opinion of the destruction of property by the "tree butcher." In many places the real estate values are 50 per cent less than what they might have been with good trees. As a result of the hacking and slashing the trees are not living a fifth of their natural life. An elm or maple should stand intact for 300 years. Barring the violence of tornadoes and such agencies, apple trees should be in a good state of bearing at 200 years, the pear at 300

NO. 5.—APPLE TREE DYING FROM CUTTING OFF BRANCHES.

and the oak at 1,000. But while the tree butcher is at large this same premature death will be continued.

For ten years I have been before the public as a writer and lecturer, and though the press is doing a noble work yet I see but one hope and that is to get the children to comprehend "tree life." I will send some reading matter free to parents who wish to have their children informed. But here is a phase which the parent can begin with. If you have not a little pocket microscope get one. Take different sticks and cut off with a sharp knife, then let the child look through the "scope," and the eye will be delighted to see the little cells opened up and appearing much like a honeycomb. These little cells communicate with one another, and when the water falls on them they are prepared to receive the spores of the various fungi. The fungi are a vegetable growth, and their mycelium or white answers to roots, penetrate the cell tissues, break them down and produce what we call "rot" or "decay." Millions of trees in farms and stages of disease can be found rapidly approaching death, as seen in No. 5. This is an apple tree, only about forty years old.

Or look at illustration No. 6, an apple tree about the same age. In both these cases the trouble arose from some one cutting off branches and

NO. 6.—APPLE TREE RUINED BY TOO MUCH PRUNING.

leaving the wood exposed. Just as soon as the tissues are broken down by the parasite—the fungi—then the condition exists for the grub, larva and ants and all kinds of "creeping cutters" to make their home in such a place. And can we blame them? Not we would do the same if we were ants or bugs. It is we who are to blame for wounding our friends, the trees, and opening up their noble bodies to decay and disease. See how the branch to the right in illustration No. 6 has been eaten away by insects. This is one of a whole orchard of apple trees in Sandusky, O., that went to pieces in a short time about fifteen months ago—an orchard of fine varieties of apples. There is an element of sadness about this, but the part that appeals to most people is the "dollar side." From a business standpoint, what a folly to allow ignorant men to reduce real estate values of property because they know enough to run a saw or wield an ax!

This is not, as a rule, malicious, done. It is often accomplished by good meaning people. Fifteen years ago I knew a good, honest Dutchman who "retained" an apple orchard for the "breewood." A year ago it cost \$2,000 to replace the damage, and certainly the trees are vastly inferior to what they would have been had they not had their noble holes and branches hollowed by disease.

I call special attention to this phase of the subject and urge all parents to get the children interested in structural botany.

Gas Engine an Old Idea.

A gas engine, similar in many respects to the internal combustion engines of today, was patented in England as far back as 1791.

NEW NEWS OF YESTERDAY

Theatrical Venture Improved Country's Mail Service.

Fast Trans-Continental Trains Originated With the One on Which Palmer and Jarrett Took Lawrence Barrett to San Francisco.

BY E. J. EDWARDS.

This hitherto unpublished story of how the country's mail service was vastly improved through the medium of a theatrical idea was told to me by Henry M. Jarrett, one of the greatest theatrical managers this country has ever had, about two years before his death, which occurred several years ago when Mr. Jarrett was an old man.

"With my partner, Mr. A. M. Palmer, we had been playing George Hignold and a very fine company in Henry V. at Booth's theater in New York city for an entire season," said Mr. Jarrett. "Hignold wanted to go to Australia at the end of the season, and we suggested to him that he stop over at San Francisco for a few weeks and give 'Henry V.' there. He wouldn't listen to it. His success had been so great in New York that he had got a case of badly swollen head.

"But the idea was born, and Mr. Palmer and I undertook to carry it out in another way. We saw Lawrence Barrett, and offered him the part of Henry V., on our part agreeing, when he consented, to furnish a grant company and as perfect stage settings as it was possible to procure. Then we determined to see if the railroads would undertake to carry us from New York to San Francisco in half a week's time.

"My, when I think of it, that was a daring proposition. This was in 1878, and the railroads, in the far west at least, were far from being as perfectly equipped as they are at the present time. However, the idea appeared to appeal to the railway managers, and they made the contract. We were to leave New York one hour after midnight and be delivered at San Francisco three and one-half days later. And the contract was kept to the letter. But I never want to ride again as we did then.

"Of course, that trip has become a tradition. Now I am going to tell you of another feature of it which has never been published. It occurred to me that, if we could get the postoffice authorities to consent, we would undertake to deliver a mail, made up in New York, in San Francisco three and one-half days later. I went to see Thomas L. James, then postmaster of New York, in fear and trembling lest he might turn the proposition down.

"Instead of that he grew enthusiastic. 'That's a great idea, Mr. Jarrett,' he said, 'and by means of it we can show the government the feasibility of establishing a fast railway mail service that will bring New York and Chicago within less than twenty-four hours' communication, New York and Omaha in less than thirty-six, and New York and San Francisco in less than four days. We will make up mails for Pittsburgh, Chicago, Omaha, Ogden and San Francisco. We will have the postmasters at those places on the lookout for the mails. Then we will make reports of the result to the government, and I think the reports will give us the long desired fast mail trains.'

"Do you know," continued Mr. Jarrett, "that the head of the express company which had the contract for carrying mails from the railway stations to the New York postoffice himself actually drove the mail wagon, rich a man as he was, from the New York postoffice to the Pennsylvania station? We took on the mail just before one o'clock at night. Before eight o'clock that morning the mail for Pittsburgh was delivered and within an hour distributed. By nine o'clock in the evening Chicago, for the first time, received a mail the same day that it left New York. Omaha got its mail early in the morning of the second day, and San Francisco's mail was distributed on the afternoon of the third day.

"That experience demonstrated to the government the feasibility of adopting through fast railway mail trains. And as I recall the history of the passage of the theatrical special from New York to San Francisco in as yet unbroken time, I am convinced that, after all, the greatest service that it performed was to show both to the government and the railroads generally that the latter were capable of cutting down time for the delivery of mails by one-half."

ENGLAND IN TITANIC STRUGGLE.

Liberals Who Are Fighting the Cause of the People Against the Peers. At left, Premier Asquith, who is reported to have been unsuccessful in his attempt to induce King George to create a Liberal peerage in the house of lords, which would have turned the government entirely over to the Liberal party. Upper right, John Redmond, Irish home rule leader, in a characteristic pose.

It is stated by the London Daily Mail that with the Liberals in power "England will be at the mercy of two dictators, John Redmond and Kell Hardie." In circle, Kell Hardie, Socialist member of parliament. Lower left, Rt. Hon. David Lloyd George, chancellor of the exchequer and leader in the fight against the peerage.

Lower right, Arthur J. Balfour, head of the Unionist forces.

Revolt That Failed.

Littleman made up his mind that he was not going to be ruled any longer by his wife, relates Harper's. So when he went home at noon he called out imperiously—"Mrs. Littleman!" Mrs. Littleman came out of the kitchen with a dishcloth tied around her head and a rolling-pin in her hand. "Well, sir," she said, "what will you have?" Littleman staggered, but braced up. "Jane, I want you to understand"—and he tapped his breast dramatically—"I am the engineer of this establishment." "Oh, you are, are you? Well, William, I want you to understand that I," and she looked dangerous. "I am the boiler that will blow up and throw the engineer over into the next county. Do you hear the steam escaping, William?" William heard it, and he meekly inquired if there was any assistance he could render in the household.

Flying Fly Increases Weight.

A flying fly in an empty dinner pail increases the weight, even though it does not touch the pail, according to the novel discovery reported at Frankfurt by Boeninger, a German engineer. An empty cylinder having a cover at top and bottom was suspended from the pan of a balance. When a fly was placed on the wall inside the weight was correspondingly increased, but when the fly left the side of the cylinder, flying into the interior, the balance was not affected. There was no change when either the top lid or the bottom one was removed, although it was flying inside. When both were removed, however, the balance was disturbed, and only the weight of the cylinder was recorded. With the upper lid on and the lower one off, the flying fly near the top of the cylinder was weighed exactly as if suspended from the lid.

Watch the advertising columns for the best Christmas suggestions.

Early Use of Spoons.

In France the use of spoons was not general until toward the end of the fourteenth century, according to common belief, but there is a question about this, for the will of Saint Remi, who baptized Clovis in 496, disposed of several implements supposed to have been spoons.

Too Much to Believe.

"The only time I was ever called a liar," says the Philosopher of Folly, "was when I stated that my two younger sisters went to Europe for the first time this summer, and never sent me a single picture post-card."

FOR A CHRISTMAS GIFT

H. L. McNAMARA

"If It's Good Hardware McNamara Has It"

UNCLE SAM'S NAVAL PROGRAM

SECRETARY MEYER CALLS FOR \$120,000,000 AND TWO BATTLESHIPS.

\$5,000,000 LESS THAN 1910

Navy Head Declares For Regular System of Increasing the Fleet—Refutes Foss' Attack and Shows Estimates Reduced, Not Raised.

Washington, Dec. 1.—The final estimates for the United States navy for the fiscal year 1911, to be submitted to congress, amount to \$120,040,059.24, or \$5,000,000 less than the sums appropriated in the naval bill for the current fiscal year. This statement was made by Secretary of the Navy Meyer.

Commenting on the program the secretary says: "It is of great importance that the construction of the navy should proceed on a regular and systematic plan. The arguments for such a policy, based upon the necessity of maintaining our relative position as a naval power in the interest of the preservation of peace, have been very thoroughly presented."

"In addition, however, to this, it is important to lay special emphasis on the effect of any break in this policy upon the shipyards of the country. The navy must be, to a certain extent, dependent for its material and, to some extent, for its repair facilities, in war times, on these establishments. Their preservation and continuance in business are necessary to the national safety. It is in this light that the need for a regular system of naval appropriations become of additional importance. Two battleships a year, with minor construction, is about as little as will suffice to obtain the result."

Secretary Meyer.

Meyer Replies to Critics.

Mr. Meyer replied to criticism of his estimates as misleading by Representative Foss of the naval affairs committee of the house, who contended that by a puzzle of figures \$12,000,000 more would be spent than appears in the official estimates.

Secretary Meyer said: "The statement has been made in several papers that the total estimates submitted by the navy department for the naval bill for the fiscal year 1911-1912, amounting to \$127,010,170, did not include the estimates for the first expenses in the construction of new vessels to be recommended by the navy department. This statement is absolutely erroneous."

"As clearly shown by the estimates submitted to congress and by the recapitulation, the estimates for the naval bill, exclusive of the building program, amounted to \$113,800,231.24. The first year's expenses for the new building program to be recommended by the department amounted to \$13,209,938, bringing the total estimates for the naval bill to \$127,010,170.24."

Estimates Are Cut.

"Since the estimates were sent to the treasury department it has been found possible to reduce the bill by the following amounts: Under the bureau of construction and repair, \$500,000; under the bureau of steam engineering, \$100,000; under the new building program, \$300,000, which brings the naval bill to a total, including expenses for the first year of the new building program, of \$125,010,668.24, which is more than \$5,000,000 less than the amounts appropriated in the naval bill for the present fiscal year."

COURT ASSISTS 'ACQUAINTED GIRL.

Judge Rules Out Dying Statement of Murder Victim.

Cambridge, Mass., Dec. 1.—The alleged "dying statement" of Clarence G. Glover of Waltham, for whose murder little Le Blane of West Abington, N. B., is on trial for her life, which is said to have named the girl as firing the fatal shot, was ruled out of the case by Judge Bond at the opening of the case. The district attorney maintained that the statement was essential to the government's case, but said that the trial would proceed.

\$12,000,000 FUND FOR U. S. STEEL PENSIONS

Relief System to Be Greatest in the World Outside That of U. S. Government.

Pittsburg, Pa., Dec. 1.—The headquarters of the Carnegie Relief Fund association have announced the plans for the largest pension system in the world, barring that of the United States government's pensions to soldiers of the Civil war.

The United States Steel corporation with an \$8,000,000 fund has combined with the \$4,000,000 relief fund established by Andrew Carnegie some years since, making \$12,000,000 to be known as the United States Steel and Carnegie pension fund. From this there will be paid to employees of the United States Steel corporation all over the country pensions as warranted in conditions laid down. The new pension fund will go into effect January 1 next.

The new fund will follow out the lines laid down by Mr. Carnegie in his pensioning of his employees years ago, but will be extended to all mills and properties of the corporation. There are under life pension by the Carnegie relief fund 625 former employees of Mr. Carnegie and these will be taken over at once by the new fund.

The rules of the new United States Steel and Carnegie pension fund which will apply to employees of the corporation and be three different lines of pensions. They are:

First, pensions by compulsory retirement, granted to employees of 20 years' service or longer and who have reached the age of seventy years for men and sixty for women.

Second, pensions by retirement, at request, granted to employees who have been 20 years or longer in the service and have reached the age of sixty years for men and fifty for women.

Third, pensions for permanent incapacity, granted to employees who have been 20 years or longer in the service and who have become permanently totally incapacitated through no fault of their own.

The pensions will not exceed \$100 per month, nor be less than \$12 per month.

RICH MEN SELECT THEIR JAIL.

Choose Hastings, Neb., Bastle as Offering Most Advantages.

Hastings, Neb., Dec. 1.—Having made a month's canvass of the Nebraska jails and decided that the one here offered the most advantages, four millionaires came here and began serving their term. The men are W. C. Comstock, Bartley H. Richards, Charles Jamison and Aquila Triplett.

They were convicted in the federal court of land frauds in fencing government lands and sentenced to a year in jail.

The four men are not to be treated like ordinary prisoners. They brought a Japanese chef, who will do their cooking. They ordered expensive furniture and carpets sent to the jail as furnishings for their rooms. In addition, they purchased a large and well selected library. The floors are carpeted and in a general way it is said the cells have the appearance of well appointed club rooms.

U. S. WARSHIPS STORM BOUND.

Second Division of Fleet Forced to Stand Off Shore in Gale.

Cherbourg, Dec. 1.—A fierce gale is raging along the coast and the battleships of the second division of the United States Atlantic fleet have been forced to stand off shore under full pressure. It is reported that an American picket boat has been sunk and seven men lost.

A launch from the battleship Louisiana made a gallant rescue of the crew of a launch from the French armored cruiser Duplex, which was swamped by the heavy seas.

Many of the American bluejackets are ashore, being unable to get back to their ships.

JEALOUS MAN SLAYS CITIZEN.

Shoots and Kills Employer of His Parted Wife.

Chicago, Dec. 1.—John C. Smith, president of J. Smith & Co., real estate dealers, was shot and almost instantly killed by John P. Smith, whose wife is employed in the real estate office. The shooting occurred at West Harrison street and South Forty-first avenue when the two men met. Mr. Smith was not related to the slayer, whose act was caused by jealousy.

John P. Smith was arrested and told the police he had shot in self-defense. Detectives had been watching the slayer for three months because of his threats against his wife, who left him two years ago, and her employer.

LAWSON'S EX-AID KILLS SELF.

John F. Donahoe Jumps in Front of Moving Train.

Boston, Dec. 1.—John F. Donahoe of Lynn, for twelve years confidential clerk of Thomas W. Lawson, committed suicide by jumping in front of a train in the Washington street tunnel. In 1908 he sued Lawson for \$250,000 for services which he claimed included the arrangement of dealings between the broker and Clark, Adickes, Hotz, Rogers and other oil, copper and gas magnates.

Freed in Frisco Bribe Case.

San Francisco, Dec. 1.—The state supreme court handed down a decision reversing the judgment and order of the trial court on the case of Louis Glass, former vice-president and general manager of the Pacific States Telephone and Telegraph company, convicted of having bribed a member of the Schmitz board of supervisors.

BALFOUR LEADS RAID ON LIBERAL THUNDER

Unionist's Promise of Referendum on Tariff Takes Plank From Rivals and Shifts Campaign.

London, Dec. 1.—The action of Hon. A. J. Balfour, the leader of the opposition in the house of commons in accepting the proposition to submit tariff reform to a referendum if the Unionists win in the coming election is hailed with the greatest enthusiasm by the Unionist party.

It is regarded by the party as a winner of votes in the north, where protection has not made much headway, and as an effective blow at the radicals, whose platform contained the tariff referendum as one of its strongest planks.

Attention is now concentrated on the results which will have been declared by Saturday night, which should give a fair indication of the election outcome. According to present arrangements 45 seats will be polled for Saturday. Twenty-five of these are held by Liberals. The most important of these are the Manchester constituencies, which the Unionists are making a desperate fight to capture.

The situation in Ireland is marked by the financial support being tendered the O'Brien candidates by the Moderates, who are hostile to the plans of John Redmond and disgusted with the threat of the Orangemen that an Irish parliament would be devoted to the extent of violence and bloodshed. The O'Brienites have more candidates in the field than in the last elections.

Few changes are expected in the Nationalist representation, as present members are being re-nominated.

GAYNOR ASSESSES IN FACES COURT.

Pleads Not Guilty to Charge of Trying to Kill Edwards.

New York, Dec. 1.—James J. Gallagher, who shot Mayor Gaynor, was arraigned and plead not guilty to the charge of trying to kill Street Commissioner "Big Bill" Edwards. Edwards was wounded while trying to protect the mayor.

Biggest Dry Dock in World.

New York, Dec. 1.—New York is to have the largest drydock in the world. It will be constructed in the Erie basin, Brooklyn, and will be more than 1,000 feet long, sufficient to accommodate the largest steamship ever planned by any builder. It will be used for docking transatlantic steamships in need of emergency repairs.

NEGRO SLAIN ROBBING TRAIN.

Bandit Shot Down While Holding Up Passengers Near Memphis.

Memphis, Tenn., Dec. 1.—Jack Thomas, negro, was shot and killed while robbing the passengers of the Memphis-St. Louis Frisco train. A. B. Walton, a Frisco watchman, killed the negro.

The train, which leaves Memphis at 5:20, had just started across the bridge when Thomas entered the smoking compartment behind the section assigned to negroes. He whipped out a gun and commanded: "Hands up! I mean business. Don't move! I'll plug you sure."

Thomas had gone through the pockets of a number of passengers when Walton, gun in hand, reached the smoker. As he appeared in the door Thomas pointed his weapon at him but Walton fired first.

SILENT TRIBUTE TO CUDAHY.

All Work Ceases, 15,000 Men Idle While Packer Is Buried.

Chicago, Dec. 1.—While Michael Cudahy, the late president of the Cudahy Packing company, was buried here every packing house branch of the company was closed through respect to the man whom all employees hold in the highest esteem.

Pitcon thousand men were idle, no slaughtering of any kind was done, not a single figure was written in any of the offices during the entire day.

The funeral was held at the home of his brother, John Cudahy. From the home the body was taken to the St. James Roman Catholic church, where requiem high mass was celebrated. The church was crowded to its capacity.

LINER ENCOUNTERS HIGH SEA.

Steamer George Washington Is Damaged By Fierce Atlantic Gale.

London, Dec. 1.—After battling four days with tremendous seas driven by a gale that at times reached a velocity of 100 miles an hour, the steamer George Washington, of the North German Lloyd line, arrived at Plymouth, plainly showing the effects of one of the most tempestuous passages in her history.

The decks were swept from bow to stern and several members of the crew sustained painful injuries. The captain stated that it was one of the most violent storms he had ever encountered. Several passengers were slightly hurt.

WETMORE WEALTH TO FRIEND.

St. Louis Widow Chief Beneficiary of Will of Late Millionaire.

St. Louis, Dec. 1.—Mrs. Theresa G. Thompson, a widow, living at 5849 Clemens avenue, is the principal beneficiary in the will of Col. Moses C. Wetmore, millionaire and former national Democratic committeeman from Missouri, which was filed for probate. Colonel Wetmore lived at the home of Mrs. Thompson for several years prior to his death on last Saturday. She was not related to Colonel Wetmore.

WONDERFUL PERFORMANCE.

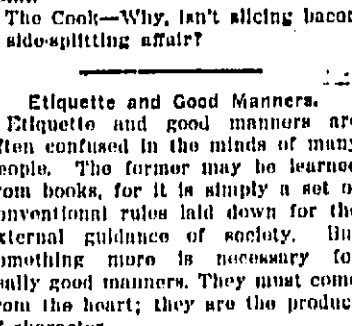

"Fred made a remarkable record with his automobile last Sunday." "How many miles did he go?" "I don't know anything about the distance, but he ran the thing nearly all day without hurting anybody or breaking down once."

HIS LITTLE JOKE.

The Cook (slicing the bacon)—This is certainly a funny occupation. The Waitress—I fail to see the point. The Cook—Why, isn't slicing bacon a side-splitting affair?

Etiquette and Good Manners. Etiquette and good manners are often confused in the minds of many people. The former may be learned from books, for it is simply a set of conventional rules laid down for the external guidance of society. But something more is necessary for really good manners. They must come from the heart; they are the product of character.

THE GOLDEN EAGLE

You've heard a lot about The Golden Eagle's new convertible overcoats. Its popularity is extremely pronounced. We want you to come in and let us show it to you today. It is a garment that YOU ought to know more about.

A Strong Feature of the Convertible Overcoat

is that it is practically TWO coats in one; the collar may be worn turned down, the conservative way, fitting closely to the neck, or the collar can be turned up, automobile fashion, if you like. We show this handsome garment in a great variety of fabrics and patterns, and the value-giving is really remarkable. The prices range from

\$15 to \$30

The Golden Eagle's overcoat display is the largest made by any clothing store in Southern Wisconsin. Visitors should make a note of this, and avail themselves of so exceptional a purchasing opportunity.

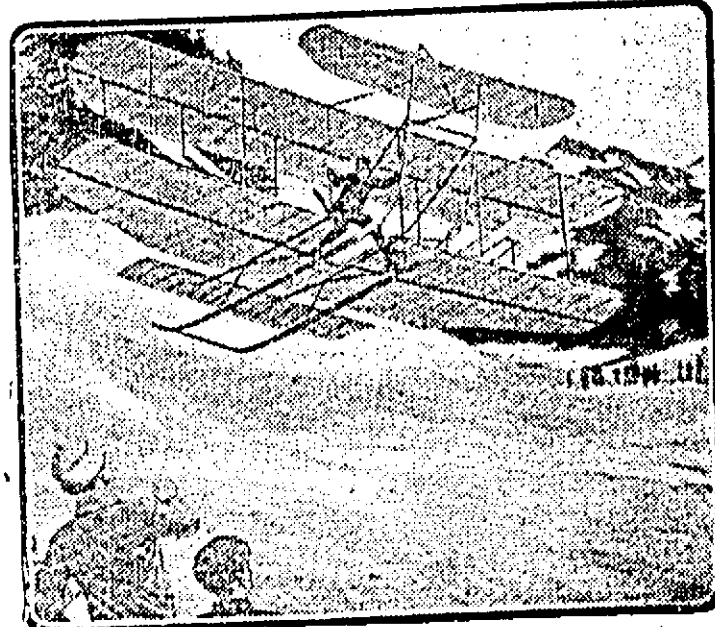

A SURE THING.

"Wasn't that you on the piazza last night?" "No." "Then I wonder who in the world it was I kissed?" "You can probably tell by going there tonight at the same time."

Among Those Present.

An officer, addressing his men, who had just returned from a somewhat fruitless expedition, said: "You were no doubt disappointed because the campaign gave you no opportunity to fight; but if there had been any fighting there would have been many absent faces here today!"

WINGED SKEEING, THE LATEST WINTER SPORT.

Montreal, Can.—The alps has entered the realm of sport in a new capacity. By attacking a super-structure of planes to the skies, which form so important a part in the winter sports of Canada, an entirely new source of pleasure and danger is found. With the winged skis a terrific momentum is obtained on the down grades and using the planes as gliders, heretofore unheard of jumps can be accomplished. It will require considerable practice on the part of those operating the planes before they become proficient and many a tumble into the soft snow is expected during the early winter months.

The Shop Early Edition

Will Be Issued Dec. 3rd

It Will Contain Fables, Myths, Stories, Poems, Legends, Folk Lore and Superstitions of Christmas, Games, Suggestions and Hints For Christmas Day, In All a Hundred Interesting Features.

FAMOUS STATESMEN WHO WILL PASS FROM POLITICAL LIFE.

Washington, D. C.—With the democratic landslide which has swept the country many familiar faces in the United States senate will be missing. Among these are two members who have served consecutively for exactly 30 years. Eugene Hale of Maine and Nelson W. Aldrich of Rhode Island. Julius Caesar Burrows of Michigan is another member of the senate who has served his state for a long period. He began his present service in 1895. Chauncey M. Depew of New York will complete his twelfth consecutive year on March 4, as will also Nathan H. Scott of West Virginia.

CHAUNCEY M. DEPEW

JULIUS C. BURROWS.

THREE ROADS TO SLASH RATES. Fares Between Chicago and New York Will Be Cut \$8.

Chicago, Dec. 1.—The greatest, and what promises to be the most bitterly fought railroad fare battle of recent years, will be begun at the moment that the new year is ushered in.

January 1 three eastern trunk lines—the Grand Trunk, the Erie and the Wabash—will slash passenger fares from Chicago to New York and Boston. The cut will not be a slight one; it will go deep. For instance, according to the notice served on 13 big western railroad systems by the insurgent lines, the first class fare from Chicago to New York will be cut \$8, and the second class fare \$6.

The traveling public will be the persons benefited as long as the railroad war lasts.

The decision to make these big reductions in fares between Chicago and these three eastern points came at a secret meeting of representatives of the three insurgent roads in this city. The formal notice of the reductions was filed yesterday. This was done in order that the cuts may become effective January 1.

NO HAIRCUT IN NINETY YEARS. Indianian Dies of Fever After Long Life Without Shave.

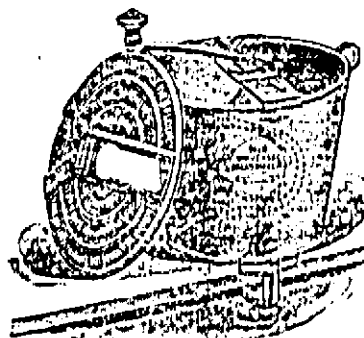

Nashville, Ind., Dec. 1.—Elbert Mortda, who lived his 90 years without having his face shaved or his hair cut, is dead at his home near here of typhoid fever. In his little log house are a number of rattlesnake skins, to the wearing of which, as he attributed his long life.

Manchester is Operated On.
London, Dec. 1.—The duke of Manchester, whose wife, Helena, is the daughter of Eugene Zimmerman of Cincinnati, was operated on for appendicitis. His condition is satisfactory.

WOMAN'S PAGE

The Evening Chit-Chat

BY RUTH CAMERON.

I HAD a most interesting evening last night. Let me tell you about it. The little stenographer lady brought her newest chum to call on me. I had heard a good deal about this personage. She is a new stenographer in the office. She came from a distant city. She was, according to Molly's advance notice, a most superior person. "This was nothing unusual for Molly, whose own exceptional qualities are only exceeded by her humility, is constantly discovering superior persons."

Having seen some of them before and smiled at Molly's wistful admiration of something not half so fine as she, I thought I was prepared for this one. But I was mistaken. She exceeded all my expectations.

She entered my study with an air of confidence, an inextinguishable favor upon both Molly and me. Having seated herself in my most comfortable chair and gazed nonchalantly about the room with an appraising eye and a subtle, suggestive smile, she opened up with a jolly denunciation of "those horrid trolley cars we came over on. Really," she assured me, "nothing but the pleasure of seeing you and Molly would have made me ride in them. So unpleasant, you know, to have to sit crowded in with all those horrid common people. Where do the nice people of the suburbs ride?"

While I was recovering from this, her ravine eye lit upon a bit of old debt wire in my cabinet, and at once she recognized an opportunity. "What a dear little pitcher, my aunt would so love that. She has a large collection, several thousand pieces. She is quite crazy about old china, really neglects her family to look after her collecting. I don't know what she would do if she didn't have her stable to amuse him. He has some very beautiful blooded horses, you know."

I didn't know, and felt a terrible desire to say so, but for Molly's sake forbore.

A mention of her long journey to the city was an occasion for the recounting of a singularly trying experience. "From Cleveland to Chicago, my dear, they had no chair car, a misunderstanding, I believe, and I actually had to ride all that distance in a day coach. So unpleasant. I don't know what mother would have said if she had known that was going to happen."

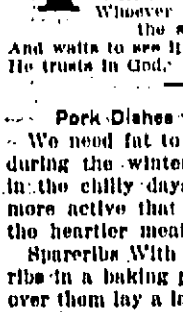

This is just a sample of the conversation, to give you the idea. It continued in this strain about two hours. I felt most edified, but the one drawback was that I wanted to know how Molly was taking it. I like my friends with a sense of humor, and I didn't like to think Molly might not have one. At her friend's mention of the reasonable ninety-dollar suit, I thought I saw a little glimmer about Molly's lips, but it might have been merely the frolic playing with Molly's mouth, which is just what any sensible frolic would want to do.

But when the newest chum was putting on her furs, and holding forth to mother on the wretchedness of the fare at her boarding house, "actually no salary course," my chance to end this suspense came.

"Molly," I murmured, "what I want to know is, do some people really convince themselves by what they say?"

"Oh, Ruth," cried Molly, with a laugh that was no mirage. "How could she?" and then almost a wail. "She never was like that before."

"Never mind, Molly," I comforted. "You can bring me the next one."

The Kitchen Cabinet

There is no unbelieved. Whoever plants a seed beneath the soil.

And waits to see it push away the clouds. He trusts in God.

Pork Dishes for Chilly Days.

We need fat to keep the body heat during the winter months, and it is in the chilly days when the body is more active that it is able to digest the heartier meats.

Superior With Apple.—Place spareribs in a baking pan, season well and over them lay a layer of sliced apples, sprinkle with bread crumbs and bake as usual.

If the price of pork keeps up it will drive the small farmer to raising his own pork and reviving the fast passing pork barrel. There are so many nice appetizing dishes which one may prepare with a little salt pork besides the old methods of fried and boiled pork. A most tasty salad may be made using three slices of salt pork cut in dice and fried brown. Pour this over chopped cabbage and onion, season well with salt and add a quarter of a cup of boiling hot vinegar. This salad once made will often be repeated, for it is a general favorite. This pork dressing may be used over lettuce and onion or early in the year over fresh dandelion greens.

Cold roast pork is nearly as durable as a roast chicken, if well roasted. To roast, put the meat into a very hot oven at first, to sear over the outside and then in the juices, then lower the heat and cook slowly until well done. Pork should never be served underdone, as trichina may be present or even tuberculosis.

Pork cake is a most desirable one to make when butter is high. Use a cup of chopped salt pork for the shortening. Fried apple soaked over night and chopped, spices and molasses added with sugar will take the place of more expensive fruit. Such a cake is not only good, but keeps well. In an emergency a most appetizing dessert may be made from it. Cut a few slices of the cake and steam them until soft and well heated through. Serve with an egg sauce of egg, hot milk, sugar and flavoring or a cooked sauce of a tablespoonful each of butter and flour, half a cup of sugar, a few gratings of nutmeg, a half cup of boiling water and a few tablespoonfuls of vinegar.

Pork fryings may be used in spice cake in place of butter or in ginger bread, making it more delicate than when butter is used.

Nellie Maxwell.

Washington's Appearance.

Washington stood six feet two inches in his boots and weighed 200 pounds. His hands and feet were unusually large, and his strength was enormous, but his voice was always weak, and his lungs were never in keeping with his otherwise powerful physique. His nose was large, his eyes of a bluish-gray, and his hair chestnut-brown, his mouth was large and the lips were as a rule tightly compressed.

Literary Breakfast Food.

Usually there isn't much meat in the cereal novel.—Kansas City Times.

PEACEFUL REVOLUTION.

BY MARY HOSKINS.

"What would you do if some one should leave you a million dollars?"

It is a childish question which we answer off-hand. Usually we plan a number of good deeds we would do. We picture ourselves

veritable "Robin Hood" of the "Windmill" in our crusade to right wrongs. We are prone to admit, with admirable modesty, that the reason the rich men of the world do not attend to these various small matters is that they do not know of them. We, having lived on certain lower planes of life, are fully cognizant of the crying needs of reform in many directions. Armed with this knowledge—and the money—we will do wonders.

Then go out and examine the life of some one of those who have lived great lives, in imagination, who do come to wealth. It sometimes happens that the lightning does strike! Do they make the world better? Are they as full of fervor for certain reforms and aids to a better and finer life for the masses than they were before?

"If I could afford to have an automobile," remarked a charming little woman, "I would remember the friends who have no chance to ride in one. I would love to go to the poor districts, and take some of the old women, and the poor, third mothers who spend their days over the wash tub, for a long, clean spin into the country. It seems so strange to me that the owners of cars never seem to take anyone but other friends who

do not know of them. We, having lived on certain lower planes of life, are fully cognizant of the crying needs of reform in many directions. Armed with this knowledge—and the money—we will do wonders.

WHY NOT THIS?

Tibet Headress Might Be Adapted to American Styles.

THE PAGOH, HEADRESS WORN IN TIBET.

Take off the pagohs and this head-dress worn by the upper class women of Tibet might adorn the pretty head of America's upper ten. Indeed, it is not as out of the way as many of the hats of the day that are considered "perfect" ones.

And as for expense, it lines right up with the most exclusive winter models, the price being practically fifteen hundred of our dollars.

This costly piece of Tibetan head-gear is interwoven with the wearer's hair and is ornamented with many turquoise, coral and small pearls. The decorations can be easily removed. It is worn only by women who are purely Tibetan and have not married Nepalese. In other words, it is as "chaste" as a George or Carlier French model.

American millinery artists please take notice of the "lines" and profit thereby when genius takes another eccentric chapeau flight.

The Genuine Optimist.

The loser of several thousand dollars at the roulette wheel complains that the wheel was crooked. Great is the optimism of him who thinks he can find a straight one.—New York Herald.

Not the Same.

"Dick Goup seems very touchy here lately. Did his attempt to make an air flight make him sensitive?"

"Well, naturally, it made him soar."

New Electrical Device.

A novel lightning arrester for telegraph and telephone line dispatching circuits has recently been devised. In place of using an air gap, a block of carbonum is employed, which furnishes enough resistance to prevent leakage of the current under normal conditions, but allows charges induced by lightning to pass freely to the ground. These lightning arresters have been found to prevent the clicks commonly produced by static charges.

Magnificent Roman Scrolls.

The Roman scrolls were adorned with borders of gold and green, and their leaves having been smoothed with mastic were sealed with cedar oil. The Byzantine emperors were great patrons of books and the "Bible" (the "Bible") or "Bible" were famous for their magnificence; they were of gold, silver, copper, gilt, and with jewels, and these massive tomes were carried in imperial processions.

Removes Tan, Freckles, Pimples, Blemishes, and every blemish on beauty, and restores the complexion to its natural beauty.

It has stood the test of 40 years, and is so famous we have received many letters from all over the world.

Lord Loveland Discovers America

By C. N. AND A. M. WILLIAMSON

Copyright, 1910, by Doubleday, Page & Company. Copyright, 1908, by the McClure Company

The painting of the great engine and the rushing roar of the wheels had come to have a refrain for her. "Never again—never again," she heard them say, as if the words were shouted spitefully into her ears. "Never see him again—never again. He'll forget you—forget you. Soon he'll marry—marry some rich girl."

Of course he didn't deserve happiness with a girl he married for money. Yet Lesley couldn't bear to think of him as miserable or disappointed in life. The brilliant sparkle which shone in the train windows seemed to her like the moments she had spent with Loveland, moments left behind forever now, and she could not help wishing that she might live them over again.

"Perhaps I might have helped him to be different if I'd tried," she said to herself as she watched the specks of fire which flashed and died. "But I didn't try. I was too proud to try, I suppose. It was a silly kind of pride, for he could be—he could be such a man if he knew himself and would live up to himself."

CHAPTER IX.

LOVELAND walked out of the dining room of the palatial hotel hardly knowing what he meant to do.

His wish was to punish those who had insulted him, but how was the question ringing in his brain. A gentleman could not knock down a management or punch its head. "A management" seemed intangible, out of reach.

Val's first thought was to march up to the desk and "have a row" with somebody, but an instant's reflection showed him that it would be more in accordance with dignity to go to his own quarters and command a representative of the "management" to come to him.

This resolve he carried out. Having reached his room and called down through the telephone for the manager, he was not kept waiting long before a gentlemanly middle-aged person appeared at his sitting room door.

"Are you the manager of this hotel?" Loveland inquired brusquely.

"I represent the manager," the newcomer returned.

"Very well, then," said Loveland. "I want you to tell me the meaning of this." And he indicated the typewritten letter and the two bills, which he had laid conspicuously on the table.

The man scarcely glanced at the papers, about which he was evidently well informed already. "The meaning is that unfortunately we're obliged to request that you vacate this suit immediately," he replied.

"Suppose I refuse to go?"

"Oh, I guess you won't do that!"

"You're right," said Val. "I wouldn't stop here now if you paid me twelve times as much as you want me to pay you. And, by the way, I can't pay to-night. You'll have to wait till tomorrow, when I can get to the—or—bank."

"I'm afraid we can't wait," the other answered quickly. "If you aren't able to pay we shall have to keep your baggage till you do."

Loveland stared. "That's a little too steep, isn't it?" he asked. "You turn me out of your hotel in the most insulting and unprovoked manner and then expect me to go somewhere else without my luggage. Are these American manners with foreigners?"

"They have to be with some foreigners," returned the other, smiling mysteriously.

"I intend to go now, whether you like or not," said Val, "and take my luggage with me."

"You can't take it unless you pay your bill. That's the law, and our police know how to enforce it. If I were you I wouldn't do anything to make it necessary to call the police. Once in their hands, you might be quite awhile getting out, you know."

Val believed that Cadwallader Hunter had somehow contrived to bring about this hideous state of affairs; though he could not imagine how unless all Americans were really to land together and avenge one another's fancied wrongs against a stranger.

"My luggage is worth a lot more than what I owe you here," he said. "We have heard all about that luggage," was the meaning reply.

Val's lips. For the moment he had forgotten Foxham's treachery, but he remembered it now with recurring force. Evidently the valet had poured forth the history of the great unpacking episode.

"In my opinion we shall be lucky if the sale of your effects covers the bill," calmly went on the representative of the "management."

"I wouldn't advise your people to try to sell my things," exclaimed Loveland.

"They will wait the customary length of time."

"They'd better be jolly careful what they do," Loveland broke in. "Anyhow, I'm much mistaken if I haven't a case in law against the hotel already."

have—I shall proceed." The other smiled for the first time. "I don't expect that any of us will be awake tonight worrying," said he.

Loveland tried to crush the man with a look, but he was not so easily abashed. "I've said all I want to say now," Val in-

"I will give you the rooms when I'm ready."

"That's all right as long as it's inside half an hour," returned the other, still with unaltered politeness. "But I have to stay till you do give them up."

"Confound you! Do you think I'll sit the place on fire the minute your back is turned?"

"Not so much that as there are other things you might do."

"What other things? Really I should like to know, for the sake of curiosity."

"Well, if you're bound to get it out of me, I've got to stay and see you don't remove any articles of value."

"By Jove! So that's it—my own or yours?"

"What's yours is ours at present, and what's ours is our own, as the bride said to the bridegroom."

Val could almost have laughed, though not at the joke. He, the Marquis of Loveland, an officer in the Grenadier guards, was to be watched lest he should steal the hotel soap or sneeze off with his own toothbrush!

He went white and red and white again. If by a word he could have tumbled the whole hotel down in an earthquake he would have been willing to be caught under the ruins. He had a wild, boyish conviction that by subjecting himself now to the extreme inconvenience he could by and by cause the hotel management poignant remorse. Yes, he could take them at their word. He would walk out of the house just as he was, leaving everything he had behind him. He would not even take his overcoat, and if he were struck down with pneumonia so much the worse for these insolent people.

His cap, his only head covering, as he had forgotten a bowler on board ship, lay on a table, and he held it out for the enemy's inspection. "You say all that is mine is yours," he sneered. "This may have cost it or 7 shillings when it was new. Now it would fetch 2 at most. I will pay you for it. Half a crown is the least I have. Pray keep the change."

He held a coin, his last large coin, down on the table where the cap had been and without another word walked nonchalantly out of the room. The low in the great hall through which he had to pass on his way out of the hotel lights glared and dazzled, and the talk and laughter of many persons sounded in his ears. Loveland pushed on blindly, conscious of himself as the one real entity in a crowd of will-o'-the-wisps and wicked lure lights. His sole concern with the people in the hotel, glaring picture was that they should suspect nothing of his feelings. He walked with his head up and something that he meant for a smile on his lips, nor was it an affection that he appeared to recognize no one, though Cadwallader Hunter, who had been waiting to see this exit, believed it to be.

The night was warm for November in New York. Still, there was a decided crispness in the air which Loveland felt as he went out.

The streets were brilliant with light, and half New York appeared to be abroad, although the theaters had been in full swing for nearly an hour. But all the women wore cloaks and the men overcoats. Loveland, in his dinner jacket and wide expanse of shirt front, his pumps and silk stockings, his cloth traveling cap pulled over his eyes, would have been noticeable even if his height and good looks had not made him a marked figure. Every body who passed stared, and more than a few glanced back at him. Here and there some pretty woman laughed at a joking comment whispered by her escort, and when his first hot rage began to cool it was uncomfortably borne in upon Loveland that he was the observed of many observers.

Here he was, on a winter's night, a foreigner in a strange city, walking the streets without an overcoat and with only a coin or two in his pocket. He remembered that in the afternoon when dealing out visiting cards and letters of introduction he had slipped

"The night was warm for November in New York. Still, there was a decided crispness in the air which Loveland felt as he went out."

The streets were brilliant with light, and half New York appeared to be abroad, although the theaters had been in full swing for nearly an hour. But all the women wore cloaks and the men overcoats. Loveland, in his dinner jacket and wide expanse of shirt front, his pumps and silk stockings, his cloth traveling cap pulled over his eyes, would have been noticeable even if his height and good looks had not made him a marked figure. Every body who passed stared, and more than a few glanced back at him. Here and there some pretty woman laughed at a joking comment whispered by her escort, and when his first hot rage began to cool it was uncomfortably borne in upon Loveland that he was the observed of many observers.

Here he was, on a winter's night, a foreigner in a strange city, walking the streets without an overcoat and with only a coin or two in his pocket. He remembered that in the afternoon when dealing out visiting cards and letters of introduction he had slipped

The streets were brilliant with light, and half New York appeared to be abroad, although the theaters had been in full swing for nearly an hour. But all the women wore cloaks and the men overcoats. Loveland, in his dinner jacket and wide expanse of shirt front, his pumps and silk stockings, his cloth traveling cap pulled over his eyes, would have been noticeable even if his height and good looks had not made him a marked figure. Every body who passed stared, and more than a few glanced back at him. Here and there some pretty woman laughed at a joking comment whispered by her escort, and when his first hot rage began to cool it was uncomfortably borne in upon Loveland that he was the observed of many observers.

He cradled into a pocket of his overcoat, where it still remained. That overcoat remained in one of the rooms lately his at the hotel. What a fool he had been, after all, to leave it behind. Meeting a policeman, he inquired for a respectable, inexpensive hotel in a quiet street not too far away and did his best to look unconscious of the big man's concentrated gaze fixed on the large white oval of his shirt front.

"You might try the New House, on Forty-third street," was the advice that followed upon reflection, and Loveland was obliged to ask three times before he was able to translate "Forty-third" into "Thirty-third street."

Then he had to turn and retrace his steps, for he had been wandering up town and must have covered some distance, as he guessed by the length of time it took him to reach the Waldorf-Astoria again. As the light caught and photographed him in passing a man who had been standing in front of the hotel under the iron canopy with the air of waiting for some one started after Loveland, walking just fast enough to keep him well in sight.

Val turned into "Thirty-third street" and stopped before the New House, which advertised itself in a blaze of starry electric letters. The man on his trail smiled as he saw the tall figure in evening dress hesitate for an instant and then turn himself at a revolving door. He himself stroled on, but he did not go far. When he had taken a dozen steps he wheeled, passed the hotel again, took a dozen more steps and again came back.

It was when he had just taken his sixth turn that Loveland shot out through the revolving door even more suddenly than he had shot in. The watcher was near enough to see the look on his face—the tenseness of the lips and drawing together of the eyebrows—and his own expression said "I thought so!" as plainly as words.

Bad Breath

"For months I had great trouble with my stomach and used all kinds of medicines. My tongue has been actually as green as grass, my breath having a bad odor. Two weeks ago a friend recommended Casca's and after using them I can willingly and cheerfully say that they have entirely cured me. I therefore let you know that I shall recommend them to any one suffering from such troubles."—Chas. H. Halpern, 114 E. 7th St., New York, N. Y.

Pleasant, Palatable, Potent, Taste Good, Do Good. Never Sickens, Weakens or Grips. 25c, 50c, \$1.00. Never sold in bulk. The genuine is stamped C. C. C. Guaranteed in cure or your money back.

SHAME OH! SHAME SUPERFLUOUS HAIR UNSIGHTLY AND MANNISS.

Don't shrink from yourself. Don't be ashamed by friends. Don't remain disgraced and unsightly. Make yourself sweeter to your sweetheart and less unattractive to your neighbors. Your safeguard is in remaining trim. Keep a beautiful face, pleasant bust, neck and arms. Rid yourself of this mortification. A hand-cup is guaranteed to remove all how dry or heavy. Cannot burn or even irritate the most delicate skin.

Large full size treatment \$1.00. If you desire, however, I will send a generous trial package to prove its wonders, upon receipt of 2 cents in stamps, for packing and mailing. Write to Mary Louise, McDaniel-Win Co., 53 Indiana Ave., Chicago.

FREE TRIAL TREATMENT. Send me your name and address, enclosing 2 cents in stamps. I will send you a good trial package of MRS. HALL'S Hair Remover for yourself. MRS. HALL'S REMOVER, Dept. 53, 5057 Indiana Ave., Chicago.

How to Cure Your Own Kidneys

A New Guaranteed Treatment, The Best That the World's Best Kidney Specialists Could Give You.

Here is the best remedy for your kidneys, backache, and the diseases that cause them. It is the world's greatest kidney cure and is made of pure herbs. Cut this out and keep it. If your kidneys are too far gone, nothing else may save you. It then rests with your kidneys. If you have pain in the small of the back, at times or constantly, if the urine is profuse or scanty, if it is smoky or cloudy after it stands a few hours, or has a bad odor, or if you have pain in the bladder or a touch of rheumatism anywhere, the chances are almost 100 to 1 that your kidneys are clogged with body poisons of various kinds.

Bladder troubles, rheumatism, bright's disease and so on, come from bad, dying kidneys. They can't throw out the poisons. Stop everything else you may be taking for your kidneys, bladder or rheumatism. Stop your whole heart and soul in the following treatment and go to bed tonight never more doubting for a moment that you will be quickly relieved and saved. Buy Dr. Berle's Kidney Pills, nothing more. Every box, every pill is guaranteed. You will say it in the greatest remedy that has ever been found. Some of the most prominent men and women of the country believe in them because they have been cured by them.

Dr. Berle's Kidney Pills are safe, give no bad after effects. In the first 24 hours you will feel different, better. In the next 24 hours you will be cured. Sold by all druggists—10 pills—10 days' treatment—25 cents—or direct from Berle Medicine Co., 1210 N. 1st St., Minneapolis, Minn. If you want to see these facts, just ask your druggist for a free trial box.

If there had been any one there to find it. But Loveland was entirely absorbed in himself and in bitter thoughts of the hateful experience he had just gone through.

It was hardly to be hoped that there would be a room disengaged in a hotel for a nervous young gentleman with an exposed white shirt front, no luggage and a missing overcoat. When Val had explained that he was Lord Loveland, just landed from England, the hotel clerk turned away to hide either a yawn or a grin and seemed no more inclined to remember the existence of an unoccupied bedroom than if his client had been plain Mr. Smith or Mr. Jones.

"We had a gentleman from England here last week," he said pleasantly. "His name was Walker, London. Sorry we can't accommodate your lordship."

(To be Continued.)

UNSIGHTLY ERUPTION ON FACE AND HEAD

Afflicted for Months—Burned and Itched—Used Cuticura and He was Cured in Three Weeks—Not Even a Scar Left.

"As a grateful mother, I feel it my duty to thank you for the cure of my little son who was afflicted for about eight months with a terrible eruption on his face and head. He was covered with a thick, scaly, itching, burning, and was constantly trying to scratch it. He was about three years old, and I was very anxious to get him cured. I tried all kinds of remedies without any relief. I even employed a good physician and I am sure he tried his very best to cure my poor suffering little boy. But, alas! instead of getting better he went for the worse. He was literally covered with scabs and ugly sores and his cries kept us awake throughout the long night. I had to keep his hands in gloves to prevent his scratching his head, as he was doubtless suffering from a burning and itching sensation, and was constantly trying to scratch it. He was about three years old, and I was very anxious to get him cured. I tried all kinds of remedies without any relief. I even employed a good physician and I am sure he tried his very best to cure my poor suffering little boy. But, alas! instead of getting better he went for the worse. Madame Mathilde Cottrelly who occupies an exceedingly exalted position on the stage and who for the past several seasons has been lending support to Mr. Louis Mann and is now doing some of the best work of her long and honorable stage career with that most estimable actor as Lookalia, the wife of the Georgian Senator in the comic play, "The Greater," Mr. Mann's special vehicle which has proven an unequalled success and will be seen at the Myers theatre Saturday, December 1st, matinee and evening is well known and highly respected in Germany as well as English speaking communities, especially in this city.

Madame Cottrelly first made her appearance in this country as manager of the Thalia theatre in the Bowery, New York where she acted as general stage director, engaged actors and was responsible for all productions. When she was a baby her father who was director of the orchestra at the Court theatre, Hamburg, Germany, used to

think considered the actor has a better time of it here, than abroad. When she was engaging the Company for the German stock company in Philadelphia, the fact became known in Germany and the best actors and actresses in the Empire offered to come to this country for salary's that were astoundingly low.

Madame Cottrelly pulls the other members of "The Greater" Company in expressions of the highest regard for Mr. Mann will return to "The Man a character actor of uncomparable worth. She is strongly hopeful that Mr. Mann will return to "The Man Who Stood Still," for while she is confident Mr. Mann a comic actor of infinite skill, yet she prefers to see him in the more serious line of work as it is more advantageous to an actor to appear in a role that clutches at the heartstrings.

The Minister of the Gospel has been portrayed in theatrical productions in

In recent years whenever a play right made a character speak in French, Spanish, German or Yiddish, dialects, he confidently expected Cotterly to play the part for him. She speaks all the modern languages, knows all the traditions of all the classic and standard modern roles and can do almost anything required as an actress, so who tells the interested American actor that she is not a great German actress and now looking to America with longing eyes. Every language some of them and once they have appeared on the stage here, they want to remain. Satiny has much to do with it and she says all

Among the many distinctive features of Eugene Walter's "Paid in Full" that make it the exceptional play of the time, is the character of the hero who is anything but heroic. That is, to say, the leading man, who is usually the hero of the play, is really the villain in "Paid in Full." Horobin is not lacking in "Paid in Full." Men and women possess the quality, but there is not a spark of it in the leading man. He is Joe Brooks, an \$18 a week clerk, who, in retirement, is not being advised in business steady by his employer. When he found out he tries to gift the woman on his young wife and to seduce her to gain immunity from punishment. There have been many plays in which the leading man has shown a bad streak at one time or

More persons have seen "Paid in Full", more companies have played it than any other piece in theatrical history. The United Play Company is maintaining this season too five companies that played "Paid in Full" all last season, each of which has to its credit a New York engagement, and one of which will be at the Myers theatre Thursday, December 1, matinee and evening.

All the larger towns and cities of the Philippines show the result of the American initiative. The local nat- anyures (producers) and councilmen are glad to adopt the suggestions of the constabulary officers, school-teachers, army men and commercial men with whom they come in contact. Street lighting, grading, pure water, sanitation, improved school buildings and a thousand and one features are being carried out in every island community in the islands.—World T day.

We are sure that the bishop of Catechesis was very right in his remark that "It is the man who slings over his work and the boy who whistles who work best." But it makes us extremely unpopular with the rest of the staff; and the boy has been violently dealt with at the second line of "I used to sigh for the silvery moon."—*London Globe.*
